Subject: Interdisciplinary team teaching proposal

Dear Profs. Rudavsky and Kaye,

At our December 11 meeting, the Arts and Science Curriculum Committee evaluated the submissions to the ASC Interdisciplinary Team Teaching grant program. I am pleased to inform you that Dean Manderscheid has accepted our recommendation to fund your application for the interdisciplinary team-taught course, "Engaging Time: Philosophical and Rabbinic Dimensions of Temporality." We believe your course will provide a rich and rewarding interdisciplinary experience for OSU students and appreciate your initiative and effort in developing this course within your curriculum.

As spelled out in the call for proposals, "Faculty whose courses are selected will each receive one full-course teaching credit for their participation in the initial year of the team-taught course, and departments offering these courses will be compensated at the lecturer rate during the initial year to offset the cost of covering the departmental course that would otherwise have been taught by the team-teaching instructor."

Congratulations on your success with the interdisciplinary team teaching grant and best wishes for a successful and engaging course! If I can answer any questions about the interdisciplinary team-teaching granting process, please let me know.

Sincerely,

Marymegan Daly
Chair, Arts and Sciences Curriculum Committee
Associate professor, Evolution, Ecology & Organismal Biology
