Subject: RE: ASCC NMS Panel Meeting - Thursday 10/22/15
Date: Friday, October 23, 2015 11:50:00 AM

Neelam,

You are very welcome. The Panel members appreciated your detailed explanations of the proposed changes to the CIS BS.

I am happy to report that the requested changes were unanimously approved with two recommendations:

- The new assessment plan with new curriculum map will be needed for major assessment purposes in the Spring.
- Update program description to make clear where GE courses are. This is especially the case for the “science elective” that appears under “electives” on p. 4. This is actually the GE Natural Science Biological Science requirement with lab and a 3rd GE Natural Science course. Since there are no 5-credit GE Natural Science Biological Science courses with lab, students would still need to take a third GE Natural Science course (biological science or physical science), which would bring the total above 5 credits. These hours above the stated 5 credits would increase the total for the major (since in ASC, GE credit cannot also count for major credit).

The proposal will next be reviewed by the full ASC Curriculum Committee.

Should you have any questions about the Panel’s feedback, please do not hesitate to contact Peter Craigmile (Chair of the NMS Panel, cc’d here), or me.

My best,
Bernadette

Bernadette,

Thanks for inviting me to the NMS Panel meeting. I enjoyed the meeting and was glad to explain the details of the changes we are proposing to the BS-CIS program. Please let me know what the next steps are.

I will update the document to make the GE portion clearer and send it to you shortly.

Best,

--Neelam
