---

Dear Harald,

On Thursday, December 3, the NMS Panel of the ASC Curriculum Committee reviewed a new course proposal for MG 4703 and a course change request for MG 5733.

Both requests were approved with double contingencies, namely: for each course, please

- Upload concurrence from Dept of Biological Chemistry and Pharmacology (or if that dept did not respond to your request for concurrence within 2 weeks and, therefore, concurrence should be assumed, please explain so);
- Upload updated curriculum map.

I will return both course requests via curriculum.osu.edu in a minute to enable the Department of Molecular Genetics to address the points above. Please let us know if you have any questions.

Regards,  
Bernadette
