Bill and Clare:

The proposal from the College of Arts and Sciences to establish an Integrated Undergraduate Major in Mathematics and English leading to the Bachelor of Science degree was approved by the Council on Academic Affairs at its meeting on February 7, 2018. Thank you for attending the meeting to respond to questions/comments.

No additional level of internal review/approval is necessary. This action will be included in the Council's next [Annual Activities Report](#) to the University Senate (July 2018).

I will work with you and the College Office with regard to approval by the Ohio Department of Higher Education. This program cannot be offered until that approval is secured.

If you have any questions please contact the Chair of the Council, Professor Maria Miriti (.1) or me.

It is a tribute to the leadership (both administrative and curricular) of the Department of English and Department of Mathematics, two of the University's leading departments, that this important programmatic initiative occurred. Our students will benefit substantially from it.

Congratulations and thank you!

Randy

W. Randy Smith, Ph.D.
