Bill and Clare:

The proposal from the College of Arts and Sciences to establish an **Integrated Undergraduate Major in Mathematics and English leading to the Bachelor of Science degree** was **approved by the Chancellor, Ohio Department of Higher Education**.

No additional level of review/approval is necessary. **The program may now be implemented.**

If you have any questions please contact me.

As I noted earlier in the process, and reiterate here, it is a tribute to the leadership (both administrative and curricular) of the Department of English and Department of Mathematics, two of the University's leading departments, and to the College of Arts and Sciences, that this important programmatic initiative occurred. Our students will benefit substantially from it.

Congratulations and thank you!

Randy

W. Randy Smith, Ph.D.
