---

Dear Professor Carstens,

On Tuesday, April 19, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a proposal for a new freshman seminar "The Biology of Sex."

I am happy to report that the Panel unanimously approved the new course with the contingency to add a statement on academic misconduct to the syllabus and use the ASC-approved statement about disability services (see p. 14 of ASC Curriculum and Assessment Operations Manual [http://asccas.osu.edu/files/ASC\\_CurrAssess\\_Operations\\_Manual.pdf](http://asccas.osu.edu/files/ASC_CurrAssess_Operations_Manual.pdf) )

Once the changes have been made to the syllabus, the course will be fully approved.

Should you have any questions about the feedback of the Panel, please feel free to contact Peter Craigmile, faculty Chair of the NMS Panel (cc'd here), or me.

Could you please send a revised copy of the syllabus to me and Peter Craigmile(.1) ?

Best wishes,  
Bernadette
