Dr Martinez,

I'm following up on details concerning the course approval mentioned below. I don't see a response from you in my emails--though that may be my oversight. At your convenience, please let me know if you concur. An email is sufficient, although I've attached the concurrence form itself if you prefer to sign it. Thanks so much.

Dr Martinez,

I'm writing in my capacity as the education abroad liaison for the Newark campus. Faculty at Newark are developing a new Arts & Sciences education abroad course with travel to Cuba beginning (ideally) next May. The resident director will be Tiyi Morris (African American and African Studies). The course will be an A&S course, but of course is relevant to your department. The A&S curricular approval panel approved this course but requested a concurrence from you as well as

AAAS. I've attached the concurrence form as well as the syllabus. I understand that an email of concurrence will suffice (if you'd prefer that to signing the attached form). Please let me know if this course has your support.
