Dear Professor Putikka,

The ASC Curriculum Committee has reviewed your proposal for a new freshman seminar, "Quantum Mechanics: Uncertainty, Measurement and Entanglement."

I am happy to report that the proposal was approved with one reminders and one recommendation:

- Reminder: Final version of the syllabus should specify that the meetings will be 55 minutes each week.
- Recommendation: Encourage full-class discussions where students can contribute as much as the instructor.

Should you have any questions about the feedback, please feel free to contact Meg Daly, faculty Chair of the ASC Curriculum Committee (cc'd here), or me.

I am also cc'ing Todd Bitters and Dawn Nolen, who both administer the Freshman Seminar program. One of them will be in touch with you for the practical arrangements related to teaching the course.

Congratulations on your new freshman seminar.

Best wishes,
Bernadette

Bernadette Vankeerbergen, Ph.D.
