Subject: Plant Pathology 4597
Date: Thursday, September 22, 2016 10:30:57 AM

Dear Sarah,

On Wednesday, September 21st, the ASCC NMS Panel reviewed the proposal for Plant Pathology 4597. The proposal was *approved* with the following suggestions:

Specify the location of the instructor's office hours (online or on campus).

The GE expected learning outcomes are currently presented as course goals. They should be clearly stated on the syllabus as the GE expected learning outcomes.

Remove the sentence on page six that states that the quizzes are not assigned points.

What constitutes a sufficient post for the discussion forums?

Regarding appendix G: should the total points be 50 rather than 30?

The course will now continue through the approval process.

Should you have any questions about the feedback, I would recommend contacting Professor Charles Daniels (Chair of the ASCC NMS Panel; cc'd on this email).

Best,
Danielle
