Geography is happy to concur with this interesting course offering

The form was a little awkward to fill, so I hope this e-mail will do the job

Morton O'Kelly  
Professor & Chair  
Department of Geography

**Subject:** Request for new course concurrence: EEOB 2410

Dear Dr. O'Kelly,

I'm writing to you in my role as Chair of the Curriculum Committee in EEOB to request a new course concurrence from the Department of Geography. This course has been developed by Dr. Steve Hovick and is entitled "Biological Invasions: The ecology and evolution of species introductions." It is targeted to a broad audience of undergraduates in the University, and not specifically STEM majors. I have attached Steve's proposed syllabus, the statement of learning goals, along with the concurrence form. If at all possible, I would appreciate it if I could receive input by the end of the month.

Thanks very much for your consideration.

Norm Johnson
