Sport, Physical Culture and the Body in Twentieth-Century America

Autumn 2016 MWF 8-8:55 a.m., Campbell Hall 252 27186

Marc Horger

PAES A240 Office Hours: M 1-3 p.m. and by appointment Phone #: 292-1427 <u>horger.2@osu.edu</u> (Please include "KNSISM 2211" in subject line)

KNSISM 2211 examines the role of sport in American society since the turn of the twentieth century. Topics of discussion will include the development of competitive athletics as commercial entertainment; the impact of competitive sport on mass media, and vice-versa; sport's intersection with race relations and gender roles; the culture of athletic celebrity; the spread of athletic competition and physical culture throughout the American educational system; the organizational growth of various significant athletic leagues and organizations; and the relationship of athletics to cultural identity. We will also examine related developments such as urbanization and industrialization, the growth of consumer-oriented culture, racial segregation and the Civil Rights movement, and the growing impact of American culture and American political power around the world.

KNSISM 2211 fulfills a GEC requirement in Historical Study. Courses such as this develop students' knowledge of how past events influence today's society and help them understand how humans view themselves; help them acquire a perspective on history and an understanding of the factors that shape human activity; help them display knowledge about the origins and nature of contemporary issues and develop a foundation for future comparative understanding; and help them think, speak, and write critically about primary and secondary historical sources by examining diverse interpretations of past events and ideas in their historical contexts. Classroom work will consist of a mix of lecture and discussion. Outside assignments will stress, in addition to a command of basic factual information, critical thinking about events in the past and about the documents (primary and secondary) through which we learn about the past.

Following successful completion of this course, students

- 1. Will understand how the examination of sport, physical culture and the changing concept of the body in 20th century America provide a lens through which social, intellectual, scientific, and technological change can be examined; will better understand the rise of consumer culture and mass media; will better understand twentieth century social movements such as the civil rights and women's rights movements; and better grasp America's growing presence in global politics.
- 2. Will be able to think critically about historical issues and historical processes, and be better able to read and interpret historical information.
- 3. Will better understand how the confluence between social influences and human actions contoured changes in the structure of sport and altered cultural attitudes towards sport, physical culture and the body.
- 4. Will better understand how individuals and social groups brought multiple meanings to and extrapolated multiple meanings from their engagement in sport, physical culture, and social construction of the body.
- 5. Will better understand how sport, physical culture and body image have been contested terrain among various social groups; and will better grasp how shifting power relations have influenced how we envision what constitutes sport and the proper concept of the body.

READINGS:

The following books are required: Ben Rader, American Sports: From the Age of Folk Games to the Age of Televised Sports; Mark Dyreson, Making the American Team; Robert Burk, Much More Than a Game; Jackie Robinson, I Never Had it Made; David Halberstam, Breaks of the Game; and Walter LaFeber, Michael Jordan and the New Global Capitalism. They have been ordered through SBX. A few additional readings will be made available online.

GRADING:

Course grades will be determined by student performance on a midterm exam (20%), a final exam (30%), two short papers (20% each), and by attendance and participation in class (10%).

Final course grades will be assigned according to the following scale, out of 100:

COURSE AND DEPARTMENT POLICIES:

Academic Misconduct -- The Ohio State University's *Code of Student Conduct* (Section 3335-23-04) defines academic misconduct as "any activity that tends to compromise the academic integrity of the University, or subvert the educational process." Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the University's *Code of Student Conduct* is not considered an excuse for academic misconduct. Please be aware of University policies on plagiarism and academic misconduct, reviewable at

http://cstw.osu.edu/writingcenter/handouts/research_plagiarism and http://studentaffairs.osu.edu/resource_csc.asp

If the instructor suspects that a student has committed academic misconduct in this course, he is obligated by University Rules to report those suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the University's *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the University. For additional information, see the Code of Student Conduct

(http://studentaffairs.osu.edu/info for students/csc.asp).

SLDS Statement and Statement of Student Rights -- Any student who feels s/he may need an accommodation based on the impact of a disability should contact the instructor privately to discuss specific needs. The Office of Student Life Disability Services is relied upon for assistance in verifying the need for accommodations and developing accommodation strategies. Please contact the Office for Student Life Disability Services, 098 Baker Hall (614-292-3307 and/or http://slds.osu.edu) to coordinate reasonable accommodations. Any student with a documented disability who may require special accommodations should self-identify to the instructor as early in the semester as possible to receive effective and timely accommodations.

Grievances and Problem Solving -- According to University Policies, available from the Division of Student Affairs, if you have a problem with this class, "You should seek to resolve a grievance concerning a grade or academic practice by *speaking first with the instructor or professor*: Then, if necessary, with the department chairperson, college dean, and provost, in that order. Specific procedures are outlined in Faculty Rule 3335-7-23, which is available from the Office of Student Life, 208 Ohio Union." "Grievances against graduate, research, and teaching assistants should be submitted first *to the supervising instructor*, then to the chairperson of the assistant's department. "

Statement on Diversity -- The College of Education and Human Ecology affirms the importance and value of diversity in the student body. Our programs and curricula reflect our

multicultural society and global economy and seek to provide opportunities for students to learn more about persons who are different from them. Discrimination against any individual based upon protected status, which is defined as age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

Mental Health Statement -- A recent American College Health Survey found stress, sleep problems, anxiety, depression, interpersonal concerns, death of a significant other and alcohol use among the top ten health impediments to academic performance. Students experiencing personal problems or situational crises during the quarter are encouraged to contact the OSU Counseling and Consultation Services (614-292-5766; http://www.ccs.ohio-state.edu) for assistance, support and advocacy. This service is free and confidential.

Intellectual Property -- Course materials are copyrighted and are owned by the author. Copyrights have been secured or they are considered fair use inside/for the course. Note that this may not apply to uses outside of the course. Any material generated by a student(s) is copyrighted. Permission must be obtained to use these materials other than the intended purpose inside the course.

HOW TO PROCEED:

The course is delivered entirely online in an asynchronous fashion – that is, it is not necessary for all students to be at a computer at the same time, as long as each student completes all course assignments by the stated due dates. The course is broken into sixteen thematic modules, each of which must be completed according to the stated instructions. All interaction with the course proceeds through Carmen, where you will find the syllabus and an overview of the course modules. This is also where course materials and assignments will begin to appear as we move forward during the semester. These assignments will consist of video lectures; primary and secondary source readings; required postings in threaded discussions; graded writing assignments based on course readings; a 5-7 pp. term paper; and a 6-9 pp. final course essay.

Two texts are required: LaFeber, Walter, *Michael Jordan and the New Global Capitalism*, and Robinson, Jackie, *I Never Had It Made*. All other required course materials will be provided within the course itself.

Course grades will be determined by student performance on **short**, **skill-building writing assignments** based on module content (35% of total grade), a **term paper** (25%), a **final course essay** (30%), and **satisfactory completion of required elements and participation in moderated online discussions** (10%). All written work, including the final essay, will be submitted online.

Assignments submitted after the due date are subject to a grade penalty of up to **10% point deduction per day, including in the case of technical difficulties**. Note, however, that completion of all assignments, even those submitted late, is a component of your course participation grade.

Grading Scale

Final course grades will be based on the total of points accumulated:

92.5 and above% A

90- 92.4 A-

87.5-89.5	B+
82.5-87.4	В
80-82.4	B-
77.5-79.5	C+
72.5-77.4	С
70-72.4	C-
67.5 -69.9	D+
60-67.4	D
Less than 60%	Е

(Some percentages are approximate.)

Discussion, Communication, and Writing Guidelines

The following are guidelines for communicating with one another here in KNSISM 2211. Above all, please remember to be respectful and thoughtful. Please see the <u>OSU Online guidelines for</u> <u>online discussions</u> for more information.

- Writing style (discussions): While there is no need to participate in class discussions as if you were writing a research paper, you should remember to write using good grammar, spelling, and punctuation. Informality (including an occasional emoticon) is fine for non-academic topics.
- Writing Style (graded assignments): On graded writing assignments, students will be expected to support their arguments from a range of the primary and secondary sources offered in the course, and to cite those sources in either MLA or Chicago style. Please be advised that Carmen's dropbox is linked to turnitin.com, a document analysis tool capable of comparing student papers to the World Wide Web as well as to papers previously submitted to courses at this and other universities. Please be aware of university policies on plagiarism and academic misconduct, reviewable at https://cstw.osu.edu/sites/cstw.osu.edu/files/handouts-plagiarism.pdf and http://cstw.doi.ogu/sites/cstw.osu.edu/files/handouts-plagiarism.pdf and <a href="https://cstw.doi.ogu/sites/cstw.doi.ogu/
- **Tone and civility**: Please work to maintain a civil and supportive learning community for your peers, one in which differences in opinion and perspective are respected and in which people can disagree amicably. Remember that tones such as sarcasm and irony don't often communicate effectively in an online environment.
- **Backing up your work**: Please consider backing up your academic work for the duration of the semester.

As the course begins, I will visit our Carmen page daily, strive to return any written communication within 24 hours (not counting weekends), and provide feedback on graded assignments in a timely fashion. Students may access this feedback as soon as it is posted. Moderated discussions in the course are intended to function much like discussions in a live-action classroom. Please afford fellow students and their ideas the same respect you would in a live situation. My goal in moderating these discussions will be to guide and shape, but not predetermine, these discussions, and suggest how they might illuminate important course themes. Student requirements with respect to discussion participation and posting will be spelled out within each module where applicable. The course is online, but it is not pre-packaged; please regard me as a resource upon whom you can draw.
