---

May Anne and Sрни:

The proposal to establish a Data Visualization specialization for the Data Analytics major, leading to the Bachelor of Science degree, was approved by the Council on Academic Affairs at its meeting on December 6, 2017. Thank you for attending the meeting to respond to questions/comments.

No additional level of review/approval is required. This action will be included in the Council's next [Annual Activities Report](#) to the University Senate (July 2018).

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions, please contact the Chair of the Council, Professor Maria Miriti (.1) or me.

It is a tribute to the leadership of this major program that it has evolved so successfully in the brief period since its implementation.

Randy

**W. Randy Smith, Ph.D.**

Vice Provost for Academic Programs
