Dear Professor Wallace,

On Tuesday, January 31, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed your proposal for a new First-Year Seminar, "MythBusters: An Introduction to Applied Interdisciplinary Research Methods."

The Panel did not vote on the proposed new course but would like the following points/questions addressed first:

- In the schedule, what are the topics for MythBuster clips # 1-10? Panel would welcome more specificity.
- Assignments: What are the hands-on experiments/projects? What types of grant proposals are meant?

Should you have any questions about this feedback, do not hesitate to contact Chuck Daniels (faculty Chair of the NMS Panel, cc'd here), or me.

Please feel free to send a revised syllabus to me, and the NMS panel will then review it.

Best regards,  
Bernadette
