Laura:

The proposal from the Department of Statistics to establish an undergraduate major program in Statistics, leading to the Bachelor of Science degree, was approved by the Council on Academic Affairs at its meeting on March 7, 2018. Thank you for attending the meeting to respond to questions/comments.

No additional level of internal review/approval is necessary. This action will be included in the Council's next Annual Activities Report to the University Senate (July 2018).

I will now work with you and the College of Arts and Sciences to submit the proposal to the Ohio Department of Higher Education for approval. The program cannot be offered until that level of approval has been secured.

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions please contact the Chair of the Council, Professor Maria Miriti (.10 or me.

I know that this is an important new programmatic initiative for the Department. Congratulations!

Randy

W. Randy Smith, Ph.D.
