Overview

This course examines three models of human nature, each of which captures something important about social and political life, and each of which has significant blind spots. The first model sees human beings as rational actors who seek to maximize the satisfaction of their preferences. The second model sees human beings as citizens with public responsibilities that orient them toward the pursuit of the common good. The third model sees human beings as members of communities that provide an identity and a set of values that enable them to navigate the social world. We begin by asking what human well-being consists in. Next we ask whether and when markets are the best way of pursuing human well-being. We then examine how the pursuit of well-being, through markets or otherwise, should be affected by considerations of desert or luck. Finally, we ask whether we should have special concern for the well-being of our fellow citizens, and if so what duties we might have to the citizens of other countries.

Policies and procedures

Academic misconduct: It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term “academic misconduct” includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct: <http://studentaffairs.osu.edu/csc>.

Disabilities: Students with disabilities that have been certified by the Office for Disability Services will be appropriately accommodated, and should inform the instructor as soon as possible of their needs. The Office for Disability Services is located in 098 Baker Hall, 113 West 12th Avenue; telephone 292-3307; TDD 292-0901; <http://www.ods.ohio-state.edu>

FINAL EXAM [canonical time for classes that meet in this time slot]

Curriculum Map: BA Political Science

Political science is the study of public power: its mobilization, exercise, and transformation by governments, political parties, interest groups, and mass behavior. Political scientists examine the causes and effects of political power and institutions in decision-making and governance at various levels, from the local to the global. We employ both scientific and humanistic perspectives and a variety of methodological approaches to analyze political structures and processes in all regions of the world.

Learning Goals:

1. Acquire basic knowledge across the four major fields of political science--American Politics, Comparative Politics, International Relations, and Political Theory.
-Students accomplish this goal by taking introductory and "pre-major" classes at the 1000 through 3000 level.
2. Gain deeper knowledge of the scholarly literature in one of the four major fields.
-Students accomplish this goal primarily in courses at the 4000 and 5000 level, although 2000- and 3000-level courses may also contribute to this knowledge base.
3. Become familiar with debates about theories, research methods, and substantive issues, and learn to engage and assess contributions to the literature.
-Students accomplish this goal primarily in courses at the 4000 and 5000 level, although 3000-level courses may also contribute to this knowledge base.
4. Develop analytic and critical thinking skills that will enable them to rigorously evaluate competing arguments and to appraise value-based claims.
-Students accomplish this goal primarily in courses at the 4000 and 5000 level, although 1000-, 2000- and 3000-level courses may also contribute to this knowledge base.

Political science majors will acquire a knowledge foundation and an array of skills enabling them to pursue a wide variety of professional and leadership roles and to become responsible and well-informed citizens. We prepare our students for post-graduate studies in numerous areas including public policy, international affairs, law, business, and political science. Our department's challenging and supportive learning environment gives the students the confidence to assume progressively greater initiative and independence through their undergraduate years and beyond.
