Claudia, Andrew and Steve:

The proposal from the Department of Sociology to establish an undergraduate major program leading to the Bachelor of Science degree has been sent to the Ohio Department of Higher Education for review/approval. The goal is to implement in Autumn 2019.

The program cannot be offered until such approval is secured, and any communication about the new program must include a qualifying statement that it is "pending approval by the Ohio Department of Higher Education."

I expect about a two-month time frame at ODHE now, and will monitor its progress for you.

If you have any questions please contact me.

Randy
