Dear Ian,

On Thursday, April 19, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a request to create new course EEOB 5330.

The panel approved the course with a couple of comments:

1. It would be beneficial to clarify the grading information. A bit more detail on the exam (45%) would be helpful to students considering the class. For example, is the exam a comprehensive final? The same applies to the format of the project presentation (45%) written and oral sections.
2. There is a typo on the curriculum map: the course number should be 5330 (not 5310). Also, it is not clear why EEOB 5610 is highlighted in the document.

Should you have any questions about the feedback of the Panel, please feel free to contact Chuck Daniels (faculty Chair of the NMS Panel; cc'd on this e-mail), or me.

The course has been advanced to the Graduate School.

My best,
Bernadette
