Hello Mary,

During the review process for your course, WGSS 3300.01S, some feedback was provided which we thought you might find useful as you continue to refine your course in preparation for the spring semester. While the course has been approved for the S-designation and no formal revisions are requested, we hope you will consider these comments as you move forward.

- Reviewers felt it was unclear whether any of the course content and activities had been developed through partnership, rather than the instructor alone. Additionally, partnership development was discussed in the future tense, giving the impression that conversations with ODRC and MCI staff had perhaps not yet happened.
- Reviewers would have liked to see more emphasis on activities that foster a sense of cohort and personal connection, particularly in the first few weeks. How will insiders understand the lives of the outside students and what will their reflections strive towards?
- Reviewers also mentioned that it would be nice to add something toward the end of the course that engages students in a conversation about the impact of the inside-out program model on them and in the grand scheme of things.

Thanks, and please feel free to be in touch as you implement this course!

Claire
