Dear Jesse,

Here is the formal feedback email about Microbiology 6155. (I am aware Chuck already discussed the course with you.) The NMS Panel e-voted on the course on Monday, Sept 24. The course was approved with one contingency and two recommendations:

- Contingency: please request concurrence from EEOB
- Recommendations:
 - The presentations are said to be worth 40%, but this is followed by the following discrepancy: 20% for first presentation, 10% for second.
 - A proper (standard) header should be given to the disability services statement. Calling the passage "Athletes, religious creed, and other accomodations" is confusing for the students.

I will send back the course via curriculum.osu.edu so that the department can address those points above.

Best,
Bernadette
