1. Provide the rationale for proposing this course:

The Colleges of the Arts and Sciences is proposing to develop a new program of seminars to provide Ohio State undergraduate students the opportunity for exploration of professional career paths and current professional issues. The seminars are developed to meet a recognized need for more opportunities for Arts and Sciences students to explore graduate and professional post-secondary educational opportunities, as well as the myriad of occupational options. Many academic units within the Arts and Sciences presently provide their majors with detailed information and preparation for post-graduation options. These seminars do not seek to duplicate those efforts but to provide a

format for a broader group of students, including non-majors, to explore the wider professional issues and professional options within or across disciplines.
