Dear Stacy,

On Friday, November 16, the Social and Behavioral Sciences Panel of the ASC Curriculum Committee reconsidered a request for new course SHS 4630. I am happy to report that the panel unanimously approved the revised submission with one comment/recommendation to please use the most recent statement about disability services as previously requested (see original email below).

The course is now advanced to OAA and OUR.

All best wishes,
Bernadette

Subject: Revision Speech and Hearing Science Minor & SHS 4630

Dear Stacy,

I understand that Christina and you have already discussed the votes of the SBS Panel on October 19. However, here is an official email confirming the decisions of the panel.

- Revision Speech and Hearing Science Minor: unanimously approved
- SHS 4630: The panel did not take a vote but would like the following points addressed first:
 - Request concurrence from Neuroscience/Psychology Dept.
 - P. 2:
 - Extra credit: Remove reference to singing and dancing.
 - Grading scale: There are two C+ instead of a C.

P. 3:

- Textbook is said to be optional but then chapters are assigned.
- Include page numbers for readings.
- P. 4: Use most recent statement about disability services; see p. 14 of ASC Curriculum and Assessment Operations Manual:
https://ascas.osu.edu/sites/ascas.osu.edu/files/ASC_CurrAssess_Operations_Manual.pdf
(The one included in submitted syllabus is not complete, refers to old physical address, and includes a URL that is no longer valid.)
- Request to provide updated curriculum map.

The revision to the Speech and Hearing Science Minor will next be reviewed by the full ASC Curriculum Committee on November 2. Christina Roup will answer any possible questions about the minor revision that may come up during that meeting. As for SHS 4630, I will return it to via curriculum.osu.edu to enable the Department to address the points above.

Let us know if you have any questions.

My best,
Bernadette
