Bernadette,

Attached are our revised changes to the Arabic major and minor. I apologize for the delay, when we received the feedback to our original Arabic Assessment Plan, we realized we needed to rethink many parts of our overall program revision plans. This was useful feedback and we greatly appreciated seeing examples of other Assessment Plans.

I believe we have addressed all of the concerns and suggestions from the Committee (though I am sure your uncannily discerning eyes will catch something we missed).

The problem we had with the Arabic 5703 class was that we did not have the full title in our previous revision documents. The course (which is in the course catalog and fully capable of being scheduled) was listed as "Biblical Figures in the Qur'an" when it is actually "Common Heritage: Biblical Figures in the Qur'an".

We look forward to your feedback and hope to have you the submissions for our other two majors soon.

Kindly,

Jeremie Smith
