Hi Bernadette,

Here are the revisions to meet the contingencies below.

1. This program is for BS degrees only - the summary on page 1 and page 2 has been updated (in part 1, 2 and 3) to reflect this.
2. All 4-year plans have the total hours listed, which are all over 121 hours, all GE's have been specified as to category, all courses which were missing have been added.
3. I corrected the Bio 3401 typo in the advising sheet. I did not add hours nor revise the sheets for non-honors yet - this is a project for a bit later.

I have included the original submission, the revised submission, plus pulled out the parts that were actually revised (mainly the 4-year plans). Please let me know if all of this is okay, or if you need additional changes or details.

Thanks,
Bill
