Dear Bill,

Thanks again for coming to ASCC on Friday. The committee unanimously approved the program changes. However, they would like to see a small tweak on page 1 at the end of this sentence: "These courses are any honors math courses at the 2000-level or above and certain specified math courses at the 5000-level or above." Could you please specify there that taking a course above 5000 requires permission from the Graduate School? If you could then send that pdf back to me, I will then forward that on to Honors and Scholars.

Many thanks,
Bernadette
