Dear Karl,

This week, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reconsidered your proposal for a new first-year seminar, "Meals, Medicine, and Money."

I am happy to report that the panel unanimously approved the seminar.

Should you have any questions about the panel review, do not hesitate to contact Chuck Daniels, or me.

Todd Bitters, Director of the First-Year Seminar program, will be in touch with you for all the practical arrangements related to teaching the course.

Congratulations on your new first-year seminar.

My best,
Bernadette

Subject: New First-Year Seminar - Meals, Medicine, and Money

Dear Professor Roth,

Last week, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee

considered a proposal for a new first-year seminar, "Meals, Medicine, and Money."

The Panel members thought that the topic is very interesting and the seminar likely to attract many students. However, before proceeding to vote on the proposal, they would like more information on the following:

- Please include a specific reading list in the syllabus.
- Also, please provide further description of the expectations for the essay.

Should you have any questions about this feedback, do not hesitate to contact Chuck Daniels (faculty Chair of the NMS Panel; cc'd here), or me.

Please feel free to send a revised syllabus to me, and I will then submit it to the NMS Panel for approval. After this week, there will only be one more meeting of the NMS panel before the members adjourn for the Summer. Therefore, to guarantee that your revised syllabus makes it on the last agenda, may I please ask you to send it to me no later than Friday, April 19 (earlier if possible).

Best regards,
Bernadette

Bernadette Vankeerbergen, Ph.D.
