Subject: Proposal to create a combined BS/MS degree program in Microbiology

Chad and Jesse:

The proposal from the Department of Microbiology to create a combined degree program in Microbiology leading to a combined Bachelor of Science/Master of Science degree was approved by the Council on Academic Affairs at its meeting on March 3, 2021. Thank you for attending the meeting to respond to questions/comments.

No additional level of review/approval is necessary. This action will be included in the Council's next [Annual Activities Report](#) to the University Senate (July 2021).

The Office of the University Registrar will contact you if there are any implementation issues.

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions, please contact the Chair of the Council, Professor Kevin Evans (Kevin.Evans@osumc.edu) or me.

Randy

W. Randy Smith, Ph.D.
