Dear Professor Husen,

On Monday, November 18, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a new course proposal for Mathematics 1154 and 1155.

The Panel unanimously approved the request with one comment:

- The Panel expressed concerns that students who take these courses may later transfer to the College of Arts and Sciences without taking Math 1151 or 1152. This may cause unintended difficulties for students who switch to ASC majors that require math beyond 1152. The Panel is concerned that this may reduce students' future choices. They recommend advising students of pathways to take courses that require Math 1151 or Math 1152 as prerequisites.

Mathematics 1154 and 1155 will continue through the approval process.

Should you have any questions about the feedback of the Panel, please feel free to contact Harald Vaessin (faculty Chair of the NMS Panel; cc'd on this e-mail), or me.

Best wishes,
Shelby
