---

Dear Professor Perry,

On Monday, December 2, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed two new course proposals for Physics 2050.01 and Physics 2050.02.

The Panel unanimously approved the requests with the following recommendations:

- Syllabus should say “satisfactory/unsatisfactory” not “pass/fail”
- The Panel recommends using 16-point font for the Disability Statement.
- The Panel recommends considering the following questions regarding mentors:
  - Will mentors receive credit? Is there any other recognition or compensation for mentors?
  - How are mentors selected? Is care taken to avoid increasing the burden on underrepresented groups in the mentoring process?

Physics 2050.01 and Physics 2050.02 will continue through the approval process.

Should you have any questions about the feedback of the Panel, please feel free to contact Harald Vaessin (faculty Chair of the NMS Panel; cc'd on this e-mail), or me.

Best wishes,  
Shelby
