Dear Dr. Podalsky and Ms. Sanabria:

On Friday, February 28, 2020, the Curriculum and Assessment Subcommittee of the College of Arts and Sciences Honors Committee approved your proposals for two new honors embedded courses, Spanish 4534E (Spanish Phonology) and Spanish 5630E (Seminar in Hispanic Linguistics). The courses will next be referred to University Honors & Scholars. Honors & Scholars has up to two weeks to review the courses. Assuming approval by all of the appropriate curricular bodies, you may offer the courses at your discretion.

In extending their approval, the members of the Curriculum and Assessment Subcommittee of the College of Arts and Sciences Honors Committee asked that I pass along the following suggestion:

- For both courses, consider adding additional opportunities for meetings between the students in the honors embedded section and the instructor to encourage more engagement and learning around the topics of selecting a research topic, writing and rewriting drafts of the research paper, and developing findings/conclusions. The committee believes this process and the meetings could take place throughout the semester to enhance the learning experience of the students in the honors embedded section.

Please let me know if you have any questions.

The subcommittee members believe your courses will be a welcome addition to the honors curriculum, and they wish you the very best with what they are certain will be a rewarding experience for you and your students.

Sincerely,
Lindsey
Chamberlain
