Dear Mike and Alisa,

Recently the SBS Panel also reviewed a request to offer Psychology 3331 fully online.

The request was unanimously approved with one contingency and two recommendations:

- Contingency: Deadlines for all the assignments should be clearly identified in either the syllabus description or on the schedule. So that includes the discussion board posts and the quizzes. Also, note that there are only three critical thinking assignments in the syllabus description (see p. 4), but the course schedule lists four.
- Recommendations:
 - The links (online media) in the face-to-face schedule would be helpful to have, if relevant, on the online version of the course.
 - The syllabus might provide an example of a critical thinking assignment and the general expectations for an acceptable response.

In a minute, I will send back this course request via curriculum.osu.edu so that the department can address the Panel's feedback.

Let us know if you have any questions.

Best,
Bernadette
