Subject: Proposal to Revise the Communication BA
Date: Wednesday, May 13, 2020 5:22:00 PM
Attachments: [Comm BA Revision proposal - updated 5-12-20.pdf](#)
[image001.png](#)
[Comm Appendix C \(advising sheets pre-major 4-year plan\).pdf](#)
[Current advising sheets.pdf](#)
[SBS approval letter - Comm BA.pdf](#)

Dear Randy and Katie,

Please find attached a proposal to revise the Communication BA. The changes were approved on Friday, May 8, by the ASC Curriculum Committee (ASCC).

Following the ASCC meeting, the School of Communication clarified one point in the proposal and we are now advancing the proposal for review by CAA. The attached documents are (1) the actual proposal, (2) the revised advising sheets and 4-year plan, (3) a copy of the current advising sheets, and (3) the Social and Behavioral Sciences Panel cover letter to ASCC.

Please use this email as a cover letter indicating that the proposal has been duly reviewed and approved by the appropriate ASC curricular bodies (including the full ASC Curriculum Committee).

Please let me know if you have any questions.

Best regards,
Bernadette

Chair, Arts and Sciences Curriculum Committee

Re: Approval of Minor Revisions to the B.A. Degree in Communication offered by the School of Communication

Dear Alison,

The Social and Behavioral Science Panel of the ASCC reviewed a proposal on April 24th, 2020, to revise the B.A. Degree in Communication offered by the School of Communication. The revisions are minor and were approved in an electronic vote with one contingency. The contingency, that the School include a transition plan in their proposal, has been met.

The School proposes to update the Communication major in several ways. Although the basic structure of the major will remain, the School has proposed updated descriptions of the specializations in the major, improved two specializations by replacing some courses in core course lists with other courses, and improved assessment procedures by updating the wording of expected learning outcomes and adding direct procedures to assess each specialization.

The SBS Panel advances the B.A. Revision proposal from the SOC to the ASCC with a motion to approve.

Regards,

Susan L. Kline

Susan L. Kline, PhD

Assistant Dean Deborah Moore Haddad
College of Arts and Sciences

Re: Proposal to implement Minor Revisions to the Program leading to a B.A.
degree in Communication from the School of Communication

Dear Dean Haddad,

The School of Communication submits a proposal to institute a series of minor changes to the B.A. major in Communication. The process leading to this proposal began in the fall of 2016 when a self-study and external review of the School's programs identified many of the curricular changes listed in this proposal. We subsequently met with groups of faculty and lecturers to discuss further needed curricular changes; we also used program assessment data and conversations with our undergraduate students to shape this proposal.

The School proposes to update the Communication major curriculum in several ways. Although the basic structure of the major specializations will remain the same, we have needed to update our curriculum and advising sheets as they have not been formally updated since 2012. Both faculty and students have also recognized particular needs for changes in the core requirements and electives for some of the specializations, and the need for new courses. The changes can be summarized as three types:

- We have updated the descriptions of the specializations of the Communication major, altered the titles of two specializations, as well as updated the names of elective lists within each specialization.
- We have improved the curricular content of two of our specializations by removing certain courses from their required core course lists and adding other courses as requirements.
- We have improved assessment procedures by updating the wording of some of our expected learning outcomes, and adding direct procedures to assess each specialization within the major program.

We believe that our changes will enable us to continue to provide a superior education in communication in the State of Ohio and the country. Attached you will find our proposal.

Regards,

Susan L. Kline

Susan L. Kline, PhD
Associate Professor

SCHOOL OF COMMUNICATION

PROPOSAL TO REVISE THE UNDERGRADUATE COMMUNICATION MAJOR LEADING TO THE B.A. DEGREE IN COMMUNICATION

Spring 2020

General Information

The School of Communication proposes a series of minor revisions to the current undergraduate major in Communication. The proposed revisions are for coursework leading to a Bachelor of Arts degree in Communication, and the proposed implementation date for these revisions is Summer, 2021. The School of Communication will continue to be responsible for administering the Communication major program at The Ohio State University.

The Communication major currently consists of three specializations: *Strategic Communication*, *New Media and Communication Technology*, and *Communication Analysis and Practice*. Strategic Communication examines communication through public relations, marketing communication, advertising, and persuasive campaign development and evaluation. New Media and Communication Technology helps students understand interactive technology, evaluate user experience, and how to communicate with users with varying levels of technical proficiency. Communication Analysis and Practice focuses on learning how to analyze the effects of media in society and on developing communication competencies for engaging with one's community and advocating social change.

Summary of Program Revisions and their Rationale

The process leading to this proposal began in the fall of 2016 when a self-study and external review of the School's programs identified many of the curricular changes advocated in this proposal. Subsequently, in autumn of 2017 the School's Associate Director (Osei Appiah), and the undergraduate communication program committee chair (Susan Kline), met with groups of faculty and lecturers who taught within each specialization to discuss needed curricular changes and to formulate the specifics of this proposal. We also used program assessment data and conversations with our undergraduate students to shape the proposal.

The School proposes to update the Communication curriculum in several ways. Although the basic structure of the major specializations will remain the same, we need to update our curriculum and advising sheets, as they have not been formally updated since 2012. Due to faculty departures and additions, advising sheets have not reflected what courses are available to students. Both faculty and students have also recognized particular needs for changes in the core requirements and electives for some of the specializations, and the need for new courses. The changes can be summarized as three types:

- We have updated the descriptions of the major's specialization areas, altered the titles of two specializations as well as the names of elective lists within the specializations.

- We have improved the curricular content of two of our specializations by removing certain courses from their required core course lists and adding other courses as requirements.
- We have improved assessment procedures by updating the wording of some of our expected learning outcomes, and adding direct procedures to assess each specialization within the major program.

Our recommended changes will enable us to continue to provide a superior education in communication in the state of Ohio and in the United States (US). Providing an up-to-date curriculum is an obvious benefit for our students. There is a major in communication at most leading universities in the US, with the *Princeton Review* reporting that communication is a top 10 college major in the country (Franeck, 2019) which is reflected at Ohio State, where Communication is currently a top 10 major (OSU Enrollment Services, 2019). Communication is more important than ever with the development of communication technologies. There is an urgent need to understand the role of communication in political life, in business, in the community and in the family. Researchers continue to acknowledge the “increasing importance of uniquely human skills, such as communication, negotiation, and persuasion” for the science and technology professions, yet at the same time these researchers note these skills are “undersupplied through education for the labor market” (Borner, et al., 2018).

Communication graduates enter many types of careers (e.g., data analyst, business development, management, marketing, public relations specialist, digital marketing strategist, sales executive, HR coordinator, public affairs director, web designer, user experience researcher, product marketing manager, and content producer and analyst). In Ohio, companies who have hired our graduates include Cardinal Health, JPMorgan Chase, Huntington National Bank, Alliance Data, MediaSource, Nationwide Children’s Hospital, Oracle, C-Span, Ohio EPA, and the Cincinnati Reds. Communication majors also attend graduate school and law school.

Student Enrollment

Currently there are 1467 undergraduate students majoring and pre-majoring in Communication. They consist of 308 pre-major students, 44 undeclared specialization students, and 1115 students specializing in Strategic Communication (637 students), New Media and Communication Technology (255 students), and Communication Analysis and Practice (223 students).

Over the course of the past academic year (Summer 2018-Spring 2019), The School of Communication admitted 594 students into the Communication major: Strategic Communication (313 students), New Media and Communication Technology (149 students) and Communication Analysis and Practice (132 students).

The Communication program also has 377 students enrolled in one of six minors: general Communication (157 students), Media Production & Analysis (99 students), Communication Technology (45 students), Organizational Communication (36 students), Media & Society (28 students), and Health, Environment, Risk & Science Communication (12 students).

We do not expect that these enrollments will decrease with our program revisions. Depending upon additions to the faculty, these enrollments may exhibit moderate increases. The minor programs will also not be affected by any of the proposed revisions to the major program.

Transition Plan

The School of Communication follows a competitive major admission model for undergraduate students. For curricular changes in the past, the school has used the term of major admission to transition students to the new curriculum. For this revision proposal, we intend follow the same transition plan, beginning with students admitted to the major SU21 and beyond. This allows currently admitted majors to continue pursuing the current version of the major without disruption. Students applying and admitted to the major beginning SU21 will be admitted to the revised curriculum. For current pre-majors who may have advanced into major-level coursework prior to major admission, we will allow them to petition through the Undergraduate Studies Committee for permission to follow the current curriculum if they have completed a significant portion of the major. Additionally, we will honor the current version of the curriculum for admitted majors who have taken a leave of absence from the university for up to one academic year (or longer via approved petition). The advising office will serve as the point of contact for helping students navigate the transition. Students seeking to declare pre-Communication are required to attend a major information session hosted by the advising staff. Advisors will use these sessions, in addition to individual advising appointments (and the department website), to inform students of the curriculum transition and advise them accordingly.

Program Goals, Learning Outcomes and Program Assessment Revisions

Currently the Undergraduate Communication Degree Program has three learning goals with seven associated expected learning outcomes. **A summary of these current learning goals, outcomes, assessment methods, and criteria for acceptability is provided in Appendix A.1.** The assessments come from graduate survey results, internship supervisor surveys and credit enrollments, and each year the assessments have met our criteria for acceptability. We intend to continue these assessments.

We propose minor updates to the wording of program goals and expected learning outcomes (ELOs). Each proposed revision is underlined in the chart below. **We also propose some additional methods to assess our program. These are summarized in Appendix A.2.** The following summarizes the changes the School of Communication plans for its assessment of the Communication major.

1. Moving forward, we want to include an assessment of each specialization area by focusing on randomly selected core required courses and the degree to which they fulfill program objectives. A sub-committee within the Undergraduate Program Committee will be formed to coordinate the assessment, to be conducted every three years, starting with 2022-2023. In September of 2021

we will ask faculty who teach the core required courses to form a bank of test items to assess Goal 1, and to determine what project assignments might be assessed for Goal 2.

2. Goal 2 will be assessed with selected oral, written and visual samples of student work. Random samples of student work from each specialization will be selected and analyzed by research assistants at the end of each of the two terms (2022-2023). An analysis will be reported for each specialization.

3. We also want to expand our assessment of Goal 3. To date, the School of Communication does not have a complete database of where graduates find their first job, and what occupations our alumni have. Some graduates also go on to graduate and professional schools. We plan to collect these data with a survey sent one year after students graduate.

As with our annual assessment data, we will use this new data in our undergraduate committee discussions to improve our communication BA degree program. Conversations with the School Director and the Director of the Undergraduate Communication Program about the data will also be incorporated into our discussions. We anticipate using these data to improve course designs as well as our student organization activities.

Communication Program Goals and Expected Learning Outcomes	
Goals	Expected Learning Outcomes
<p>GOAL 1: Students demonstrate knowledge of communication concepts, theories and principles within a social science framework to understand the role of communication in society.</p>	<p>Successful students are able to ...</p> <p>1.1 <u>Articulate relevant concepts, theories and principles of communication.</u></p>
	<p>1.2 Explain systematic trends in core concepts related to communication.</p>
	<p>1.3 <u>Apply relevant concepts, theories or principles to communication-related problems.</u></p>
	<p>1.4 Apply critical thinking and analytical skills to evaluate communication problems and processes.</p>
<p>GOAL 2: Students are competent in practicing communication <u>for a range of purposes, audiences, contexts and modalities.</u></p>	<p>2.1 <u>Demonstrate competency in oral communication for diverse purposes, contexts, and audiences.</u></p>
	<p>2.2 <u>Demonstrate competency in written and visual communication for diverse purposes, contexts, and audiences.</u></p>
	<p>2.3 <u>Demonstrate principles of collaborative behavior in team environments.</u></p>
	<p>2.4 <u>Evaluate social and ethical implications of communication practices.</u></p>
<p>GOAL 3: Students are sufficiently trained and prepared <u>to obtain employment in the field of communication or related to the field of communication.</u></p>	<p>3.1 Complete an internship.</p>
	<p>3.2 Design and implement research projects with faculty.</p>
	<p>3.3 <u>Discuss how course knowledge and/or assignments fit career expectations and opportunities.</u></p>

IV. Program Revisions and Relationship to Other Programs

Our program does not overlap with other programs within the university. There are currently no cooperative or articulation arrangements with other institutions or organizations for the B.A. degree in Communication, which would continue under the revised program. The proposal revisions were developed by faculty in each track (i.e., Assistant, Associate, Full), the Associate Director and Director, and the Undergraduate Communication program committee. This proposal has not been submitted previously. Students for this revised program will be drawn in the same way as the existing program.

Students who apply to obtain a B.A. Degree in Communication will continue to draw from a mix of students, including those entering the University as freshmen, transfer students, students from other academic programs, and those pursuing double major programs.

V. General Curricular Requirements and Expectations

Students majoring in programs in the College of Arts & Sciences need at least 121 earned semester hours to be eligible for graduation. Our current and proposed major programs require 34-35 major hours, not including the pre-major courses COMM 1100 and 1101 as well as STAT 1350 or 1450 (prerequisite requirement for our major's Research Methods requirement) which can currently count towards a student's General Education requirements. Our specializations in Communication Analysis & Engagement and Communication Technology require 34 credit hours, and our specialization in Strategic Communication requires 35 hours. We do not expect that students will complete more than the required number of hours. However some of our students do pursue double majors or dual degrees which increase their total number of earned hours upon graduation.

Many Communication majors opt to complete minors in Business, Design Thinking, or Media Production & Analysis, but there is no common theme or department that draws our students.

Requirements leading to a Bachelor of Arts degree in Communication currently consists of 11 communication courses totaling 34 or 35 credit hours. A grade of C- or better is required for each of the 11 courses in the major. Maintaining a 2.0 GPA in the major is required after admission to the program. These requirements will continue under the revised program.

Other than STAT 1350 or 1450, there are no other courses students are required to take in other departments. There are no other additional requirements beyond the course requirements to complete the communication major, which will continue under the revised program. The present B.A. degree is not accredited, and accreditation is not sought for this revised degree.

THE COMMUNICATION MAJOR AT OHIO STATE

Communication in all forms has become central to everyday life, business, and public policy. The mission of the undergraduate communication program in the School of Communication is to promote greater understanding of communication and greater proficiency in practicing communication to make a difference for the state of Ohio, the US, and the world.

The undergraduate program major has three areas of specialization: Strategic Communication, Communication Technology, and Communication Analysis and Engagement. Across these specializations, students examine how face-to-face interactions, mass media, and communication technology influences public opinion, business, politics, interpersonal relationships, and communities. Students develop knowledge of many domains: the uses and effects of traditional mass media, social media, and communication technologies; the impact of communication on democratic institutions; how effective communication campaigns and interventions operate; strategies for improving health and the environment; and communication skills that enable students to maintain important relationships and participate effectively in civic life.

I. Pre-Major Requirements for all specializations in the Communication major

All students must complete two pre-major courses, with a grade of C- or better in both courses. There are no changes to this pre-major requirement:

COMM 1100 (Communication in Society)

COMM 1101 (History of Communication)

II. Specialization: Strategic Communication

Specialization Description (Revised wording): Strategic Communication teaches how to develop campaign goals and think strategically to influence stakeholders, the public, and other audiences in order to accomplish an organizational objective. The specialization integrates theory, real-world practice, and skills training, and examines communication through public relations, marketing, crisis communication, advertising, persuasion theory, and communication campaigns.

Students train for careers such as public relations specialists, communications specialists, marketing, communication campaign and information managers, and as communication consultants.

Core Requirements (16 credit hours. All five courses are required).

COMM 2321 (Writing for Strategic Communication)

COMM 2331 (Strategic Communication Principles)

New to Core: COMM 3333 (Crisis Communication) or COMM 3444 (Advertising & Society)

New to Core: COMM 3334 (Strategic Message Design)

COMM 4337 (Public Communication Campaigns)

Removed COMM 2367 (Persuasive Communication)

Removed COMM 3325 (Organizational Communication)

Rationale for changes: We want to increase professional writing experience and competency by adding professional writing courses to the core requirements. We also want to strengthen students' foundational knowledge in advertising and public relations.

Research Methods Requirement (4 credit hours)

COMM 3163 (Communication Industry Research Methods)

Focus Area Electives (Choose at least 3 courses within or across clusters)

New Cluster Area: Strategic Planning in Public Relations/Advertising

New to Cluster Area: COMM 2511 (Visual Communication Design) _

New to Cluster Area: COMM 3332 (Risk Communication)

COMM 3340 (Principles of Environmental Campaigns)

COMM 3345 (Strategic Media Planning)

COMM 3444 (Advertising & Society)

New to Cluster Area: COMM 3558 (Social Media)

COMM 3628 (Contemporary Persuasion Theory)

COMM 4445 (Stereotypes in Media)

COMM 4558 (Social Media Analytics)

New Cluster Area: Strategic Communication Contexts

New to Cluster Area: COMM 2367 (H) (Persuasive Communication)

New to Cluster Area: COMM 3325 (Organizational Communication)

COMM 3330 (Communication & Conflict Management)

COMM 3333 (Crisis Communication)

COMM 3340 (Principles of Environmental Campaigns)

COMM 3668 (Intercultural Communication)

Remove from Focus Area Electives:

COMM 3331 (Communication and Decision Making)

COMM 4737 (Health Communication in Mass Mediated Contexts)

COMM 4820 (Public Opinion and Communication)

Rationale for changes: We want to streamline and restructure lists of electives into thematic clusters to increase students' understanding and career building options. Courses removed from the core requirements will still be available as focus area electives.

New Experiential Learning requirement (3 credit hours). One course required.

New course: COMM 3800 (Career Development in Communication)

New course: COMM 3188 (The PRactice)

COMM 4191 (Internship)

COMM 4998 (Undergrad Research)

COMM 4999 (Thesis Research)

Rationale for changes: We added an explicit Experiential Learning requirement that will now require Communication majors to take one of the course options listed above.

Under the current curriculum, over 45% of graduates have completed at least one internship experience and found this experience to be valuable to their job search and career goals. While an internship specifically is not required for graduation, we hope this curriculum change will encourage more students to complete an internship experience. The School also created a new Career Development course to educate majors about the value of a Communication degree and to provide strategies for career planning.

New Oral Communication Skills requirement (3 credit hours). One course required.

COMM 2110 (Public Speaking)
COMM 2131 (Business and Professional Speaking)
COMM 2367(H) (Persuasive Communication)

Rationale for changes: With the removal of COMM 2367(H) from the core requirements, we added an Oral Communication Skills requirement so that our Strategic Communication majors still have background and coursework in Oral Communication.

III. SPECIALIZATION: Communication Analysis and Engagement (revised specialization title from Communication Analysis and Practice)

Specialization Description (Revised): Communication Analysis and Engagement focuses on how communication affects society and how communication can improve society. Students learn to analyze the uses and effects of media in society, how public advocacy and international communication operates, and how diversity and culture affect communication in community life. Students learn communication skills and practices that are important for leadership and decision-making, and for building important relationships in personal and corporate life. Students also learn how communication interventions and campaigns can improve the public's understanding about pressing public issues such as in health, science and the environment.

This specialization prepares students to become critical thinkers and effective problem solvers for careers in both the public and public sectors, such as in business management, government relations, or as communication specialists in health or political organizations. The specialization also provides excellent preparation for graduate school or law school.

Core Requirements (12 credit hours). All four are required.

COMM 2110 Public Speaking
COMM 2367 (H) Persuasive Communication
COMM 3440 Mass Communication and Society
COMM 3620 Interpersonal Communication

Research Method Requirement (4 credit hours). One course required.

COMM 3160 Communication Research Methods

New Experiential Learning requirement (3 credit hours). One course required.

New course: COMM 3800 (Career Development in Communication)
COMM 4191 (Internship)
COMM 4998 (Undergrad Research)
COMM 4999 (Thesis Research)

Rationale for changes: We added an Experiential Learning requirement that will now require Communication majors to take one of the course options listed above. Under the current curriculum, over 45% of graduates have completed at least 1 internship experience and found

this experience to be valuable to their job search and career goals. We hope this curriculum change will encourage more students to complete an internship experience. The School also created a new Career Preparation course to educate majors on the value of a Communication degree.

Focus Area Electives (15 credit hours). Choose at least 5 additional courses in the School of Communication. At least 12 hours should be at the 3000 level or above. Students may choose courses from within and between thematic clusters to fit career goals. (Requirement was revised from 6 to 5 courses to allow for new Experiential Learning requirement, while maintaining total number of major hours required)

Media Effects

COMM 3402 Crime and the News Media
COMM 3413 Media Entertainment
COMM 3442 Violence in Society and Violence in Media
COMM 4401 Mass Communication and Youth
COMM 4445 Stereotypes in Media
COMM 4600 Communication and Emotion

New Cluster Area title Communication Competencies for Leadership

COMM 2131 Business and Professional Speaking
COMM 3325 Introduction to Organizational Communication (added)
COMM 3330 Communication and Conflict Management
COMM 3331 Communication and Decision Making
COMM 3624 Communication in Personal Relationships
COMM 3628 Contemporary Persuasion Theory
COMM 3629 Language and Social Interaction
COMM 3662 Communication and Gender
COMM 3667 Nonverbal Communication
COMM 3668 Intercultural Communication
COMM 4635 Communication Dynamics in Groups

New Cluster Area: Communication, Diversity, and Culture

COMM 2131 Business and Professional Speaking
COMM 3330 Communication and Conflict Management
COMM 3662 Communication and Gender
COMM 3668 Intercultural Communication
COMM 3597.01 International Perspectives on Communication
COMM 3597.02 Media and Terrorism
COMM 4445 Stereotypes in Media

Health, Environment, Risk & Science Communication

COMM 2596 Intro Health, Environment, Risk and Science Communication
COMM 3332 Risk Communication
COMM 3340 Principles of Environmental Campaigns
COMM 4240 Science Communication

COMM 4736 Health Communication in Interpersonal Contexts
COMM 4737 Health Communication in Mass-Mediated Contexts
COMM 4738 Health Communication and New Media

Communication for Advocacy, Politics, and Citizenship

COMM 3330 Communication and Conflict Management
COMM 3331 Communication and Decision Making
COMM 3404 Media Law and Ethics
COMM 3628 Contemporary Persuasion Theory
COMM 4814 Political Communication
COMM 4820 Public Opinion and Communication

Rationale for Changes: The major specialization area title and Focus Area Elective clusters have been updated to better reflect the content of our courses. Due to the new Experiential Learning requirement, the number of Focus Area Electives required was changed so that students still need the same number of major courses in order to graduate.

IV. SPECIALIZATION: Communication Technology (revised specialization title from New Media & Communication Technology)

Specialization Description (Revised): Communication Technology explores the way technology is transforming the field of communication. This specialization helps students understand interactive technology, evaluate the user experience, and communicate with users with varying levels of technical proficiency. Students in this major can choose courses in Human-Computer Interaction and User Experience (HCI + UX) and Communication Technology Management.

HCI + UX courses focus on how people use technology and the social implications of new technologies. Communication Technology Management courses teach students how to help others use technology effectively in the workplace.

Core Requirements (12 credit hours). All four are required.

COMM 2367 (H) (Persuasive Communication)

COMM 2511 (Visual Communication Design)

Removed Design course options from previous Visual Design requirement

COMM 2540 (Intro to Communication Technology)

COMM 3554 (Social Implications of Technology)

Removed COMM 3545 (Human-Computer Interaction & User Experience)

Research Method Requirement (4 credit hours). One course required.

COMM 3160 (Communication Research Methods)

COMM 3165 (Evaluation and Usability Testing)

Focus Area Electives (6 credit hours). Choose at least 2 courses from the following:

COMM 3513 (Video Games and Society)

COMM 3558 (Social Media)

COMM 4557 (Communication Network Infrastructure)
COMM 4558 (Social Media Analytics)
COMM 4665 (Human Communication in Social Networks)
COMM 4738 (Health Communication and New Media)

Electives: Choose three additional courses from the following two clusters of courses (9 credit hours required)

New cluster area title: HCI + UX

COMM 3513 (Video Games and Society)
COMM 3545 (Human-Computer Interaction & User Experience)
COMM 4511 (User-Centered Web Design)
COMM 4555 (Computer Interface and Human Identity)
COMM 4557 (Communication Network Infrastructure)
CS&E 2123 (Data Structures Using Java)

Communication Technology Management

COMM 3330 (Communication and Conflict Management)
COMM 3331 (Communication and Decision Making)
COMM 4556 (Information Technology and Organizational Communication)
COMM 4557 (Communication Network Infrastructure)
COMM 4665 (Human Communication in Social Networks)
CS&E 2123 (Data Structures Using Java)

Removed from cluster area:

BUS MHR 3100 (Foundations of Management & HR)
BUS M&L 3150 (Marketing Management)
PSYCH 3310 (Sensation and Perception)
PSYCH 3312 (Memory and Cognition)
PSYCH 5620 (Technology, Efficiency, and Happiness)

New Experiential Learning requirement (3 credit hours). One course required.

New course: COMM 3800 (Career Development in Communication)
COMM 4191 (Internship)
COMM 4998 (Undergrad Research)
COMM 4999 (Thesis Research)

Rationale for changes: We added an Experiential Learning requirement which will now require Communication majors to take one of the course options listed above. Under the current curriculum, over 45% of graduates have completed at least 1 internship experience and found this experience to be valuable to their job search and career goals. We hope this curriculum change will encourage more students to complete an internship experience without requiring internship credit for graduation. The School also created a new Career Preparation course to educate students on the value of a Communication degree.

Other Curricular Requirements

We have attached a curriculum map (Appendix B) and the proposed advising sheets and a four year plan (see Appendices C 1-4). There are no required credits students take in other departments, or other major requirements in addition to course requirements. Faculty and staff offices and labs are in Derby Hall and the Journalism Building. There are no additional university resources that will be required for the revised major.

COMMUNICATION-BA COMMUNICATION ANALYSIS and ENGAGEMENT (CAE)

2021-2022 Academic Year

Revised 12/2019

This program leads to a Bachelor of Arts degree.

Requirements for students admitted to the major SU21 and later.

Eleven (11) COMM courses totaling at least 34 credits are required.

A grade of C- or better is required in all courses in the major. Maintaining a 2.0 GPA in the major is required after admission to the program.

Program Area Description

Communication Analysis and Engagement is a broad-based education that focuses on how communication affects society, and how communication can improve society. Students learn to analyze the uses and effects of media in society, how public advocates and international communication systems operate and how diversity and culture affect communication in community life. Students learn the communication practices that help build and maintain important relationships in personal and corporate life, and they learn how communication interventions and campaigns can improve the public's understanding about pressing public issues like health, science and the environment.

This specialization prepares students to become critical thinkers and effective problem solvers for careers in both the public and public sectors, such as in business management, government relations, or as communication specialists in a health or political organization. The specialization also provides excellent preparation for graduate school or law school.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Admission is competitive and an online application is required. Please see comm.osu.edu for application deadlines.

COMMUNICATION-BA COMMUNICATION TECHNOLOGY (COT)

2021-2022 Academic Year

Revised 12/2019

This program leads to a Bachelor of Arts degree.
Requirements for students admitted to the major SU21 and later.
Eleven (11) COMM courses totaling at least 34 credits are required.
A grade of C– or better is required in all courses in the major.
Maintaining a 2.0 GPA in the major is required after admission to the program.

Program Area Description

Communication Technology explores the way technology is transforming the field of communication. This specialization helps students understand interactive technology, evaluate the user experience, and communicate with users with varying levels of technical proficiency. Students in this major can choose courses in Human-Computer Interaction and User Experience (HCI + UX) and Communication Technology Management.

HCI + UX courses focus on how people use technology and the social implications of new technologies. Communication Technology Management courses teach students how to help others use technology effectively in the workplace.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Admission is competitive and an online application is required. Please see comm.osu.edu for application deadlines.

COMMUNICATION-BA STRATEGIC COMMUNICATION (SCM)

2021-2022 Academic Year

Revised 12/2019

This program leads to a Bachelor of Arts degree.
Requirements for students admitted to the major SU21 and later.
Eleven (11) COMM courses totaling at least 35 credits are required. A grade of C- or better is required in all courses in the major. Maintaining a 2.0 GPA in the major is required after admission to the program.

Program Area Description

Strategic Communication teaches how to develop campaign goals and think strategically to influence stakeholders, the public, and other audiences in order to accomplish an organizational objective. This specialization integrates theory, real-world practice, and skills training, and examines communication through public relations, marketing, crisis communication, advertising, persuasion theory, and communication campaigns.

Students train for careers such as public relations specialists, communication specialists, marketing, communication campaign and information managers, and as communication consultants.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Internship – To reinforce the fit between coursework and real-world applications and to improve career opportunities, students are encouraged to complete an internship for at least one semester.

Minor – Students are encouraged to complete a minor. Depending on individual interests, students may wish to consider a minor in one of the following areas: Business, Capital Program, Consumer Sciences, Economics, Leadership Studies, or Professional Writing.

Interested in majoring in Communication or Journalism?

2019-2020 Academic Year Requirements

Pursuing Communication or Journalism at Ohio State

Students interested in majoring in communication or journalism typically begin in the pre-major program in the School of Communication. Students are required to apply for admission to their major and specialization after completion of pre-major coursework. Each program is competitive for admission; GPA cutoffs fluctuate with every applicant pool. The competitive admissions process is based on cumulative grade point average, pre-major course completion, and enrollment capacity. Major admission is not guaranteed. Applications are accepted each semester. See below for the different pathways in becoming a communication or journalism major:

Pre-Major Students

New first-year students typically begin their first year at OSU as a pre-communication or pre-journalism major. During the first year, students typically complete the pre-major course requirements and apply for admission to their major and specialization at the end of spring semester.

Current OSU Students Changing to Pre-Communication or Pre-Journalism

Current OSU students interested in majoring in communication or journalism are required to attend a Major Information Session in order to change to the pre-major. Students should declare pre-communication or pre-journalism while completing the pre-major course requirements. Pre-major declaration can be completed at the session. Pre-major students are encouraged to complete the pre-major course requirements and apply for admission to their major and specialization within 1-2 semesters after declaring the pre-major.

Transfer Students

Transfer students typically begin their first semester at OSU as a pre-communication or pre-journalism major. During the first semester, students complete the pre-major course requirements and apply for admission to their major and specialization at the end of the semester. Direct equivalents to the pre-major requirements are permitted but credit for these courses must be posted to the student's Ohio State record by the Major & Specialization Application deadline. Ohio State cumulative GPA is used for the application decision; however, if you apply prior to your first semester of enrollment at OSU, a merged transfer GPA will be used. Once an OSU student, the School of Communication does not consider transfer GPAs in the major admissions decision.

School of Communication DirectAdmit Students

Select new first-year students at the Columbus campus are offered direct admission to the major program based on their high school academic profile. Eligibility is determined during the Ohio State Undergraduate Admissions application process and eligible students are notified by the School of Communication (see comm.osu.edu for eligibility requirements). DirectAdmit students complete the pre-major courses by the end of the first year at OSU. Communication DirectAdmit students submit the Major & Specialization Application to declare their communication specialization at the end of spring semester. Journalism DirectAdmit students will undergo a program review to ensure pre-major course completion and adequate progress towards the degree program in lieu of the application at the end of spring. No additional students are added to the DirectAdmit first year class after June 1. DirectAdmit students wanting to change their major should use the Major & Specialization Application to do so. Regional campus, international students, and transfer students are not eligible for School of Communication DirectAdmit.

Honors Students

Incoming first-year students accepted to the University Honors Program will directly enroll into the Arts and Sciences Honors Program if they choose to major in Communication or Journalism. ASC Honors students do not need to submit a Major & Specialization Application. Instead, honors students must meet with the School of Communication Honors Advisor to declare the major and/or specialization. Pre-major coursework is still required for honors students.

If you are a current Ohio State honors student who is *changing majors to the School of Communication* from another Ohio State college or program outside of Arts and Sciences (such as University Exploration, the Fisher College of Business, the College of Engineering, etc.), you will need to apply for membership in the Arts and Sciences (ASC) Honors Program to retain your honors status. See aschonors.osu.edu for membership information.

Pre-Major Course Requirements

All students must complete two pre-major courses. A grade of C- or better is required in both courses for a Major & Specialization Application to be considered.

COMM 1100 – Communication in Society (with a grade of C- or better)
COMM 1101 – History of Communication (with a grade of C- or better)

Application Information

Major & Specialization Application review does not begin until final grades have been posted for the semester. Students can submit their application while completing the final pre-major coursework. Grades of C- or better in both courses must be posted to OSU record by the time of application review. Students who are not competitive for their first choice program will be considered for their second choice. The application is available on the School of Communication website:

comm.osu.edu → Undergraduate → Information for Pre-Majors → Apply to the Major

2020 Application Dates

Applications are accepted each semester during the academic year. Students can apply for admission to the major during summer, autumn, or spring semester.

Spring Semester Application

Application Opens: March 16, 2020

Application Deadline: May 1, 2020

Summer Semester Application

Application Opens: June 15, 2020

Application Deadline: August 1, 2020

Autumn Semester Application

Application Opens: October 19, 2020

Application Deadline: December 9, 2020

Major Information Sessions

Students interested in majoring in communication or journalism are required to attend a Major Information Session in order to change to the pre-major. These sessions are designed to provide information about the majors offered in the School of Communication. Students must attend a major information session before scheduling an individual advising appointment with a School of Communication advisor. Overviews of each major program will be given at the session, plus information about pre-major coursework and the application process. Career information, internship for credit, and undergraduate research information will also be discussed. Students can declare the pre-major at the session.

Spring 2020 Major Information Session Dates

All sessions are located in 3136 Derby Hall

Wednesday, January 15th at 3:30pm
Thursday, January 23rd at 10:30am
Monday, January 27th at 3:30pm
Tuesday, February 11th at 9:00am

THE OHIO STATE UNIVERSITY

COLLEGE OF ARTS AND SCIENCES

SCHOOL OF COMMUNICATION

Bachelor of Arts COMMUNICATION

(general plan for any specialization)

All programs in the College of Arts and Sciences require a minimum of 121 semester hours, including a minimum of 39 hours at the 3000 level or higher. The complete General Education curriculum and degree requirement list is available at: <https://artsandsciences.osu.edu/academics/current-students/advising/ge>

Students interested in majoring in Communication are required to apply for admission to their major and specialization after completion of pre-major coursework. Pre-major requirements (Communication 1100 and 1101) must be completed with a C- or better for a Major & Specialization Application to be considered. The competitive admissions process is based on cumulative grade point average, pre-major course completion, and enrollment capacity. See <http://comm.osu.edu/undergraduate/pre-major> for additional details. *NOTE: School of Communication Direct Admit program students are required to submit a Major & Specialization Application once the pre-major requirements are fulfilled. All applicants are reviewed for their specialization based on the competitive admissions process as listed above.*

Through the major admissions process, students are required to select and apply for a specific Communication specialization. The curriculum of the different specializations varies. See <http://comm.osu.edu/undergraduate/communication> for information about each specialization.

Electives could be used to complete minor.

*Communication 1101 is a GE Social Science: Individuals and Groups course.

**Communication 1100 counts as a GE Open Options course.

***This Social Science GE course must be from the Organizations and Politics or Human, Natural, and Economics Resources List.

€Math 1148 meets the GE Math and Logical Analysis requirement and requires Math Placement Score N. Students with other math placement scores will need to take different math classes. Students should speak with an advisor before selecting a math course.

‡Stats 1350 is a pre-req for the Research Methods requirements on the major and counts as a GE Data Analysis.

•Course selected for this requirement is recommended to cross-count with GE Social Diversity in the US. In the GE packet, Social Diversity in the US courses are marked with a dot symbol. Students who do not cross-count the Social Diversity in the US requirement with another GE courses will still be required to complete this requirement. Students are required to complete a minimum of 3 hours of Social Diversity in the US courses.

ΔCourses selected for this requirement are recommended to cross-count with GE Global Studies. In the GE packet, Global Studies courses are marked with a triangle symbol. Students who do not cross-count the Global Studies requirement with other GE courses will still be required to complete this requirement. Students are required to complete a minimum of 6 hours of Global Studies courses.

Plan may vary depending on course offerings, placement test scores, any credit previously earned, individual student scheduling, major specialization selected, and admission to major. Students are encouraged to meet with their advisor at least once per semester to discuss scheduling and ensure they are on the track they hope to be on for completing their degree.

COMMUNICATION-BA COMMUNICATION ANALYSIS and PRACTICE (CAP)

2019-2020 Academic Year

Revised 5/2019

This program leads to a Bachelor of Arts degree.
Requirements for students admitted to the major SU12 and later.
Eleven (11) COMM courses totaling at least 34 credits are required.
A grade of C- or better is required in all courses in the major. Maintaining a 2.0 GPA in the major is required after admission to the program.

Program Area Description

Communication Analysis and Practice offers a broad-based education in communication combined with the flexibility to pursue your specific area of interest. This option provides you the opportunity to cluster electives and concentrate in a particular focus area within the communication field. The Communication Analysis and Practice program offers excellent preparation for graduate school or law school or a career as a communication specialist in a health or political organization.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Admission is competitive and an online application is required. Please see comm.osu.edu for application deadlines.

SCHOOL OF COMMUNICATION

COMMUNICATION-BA NEW MEDIA and COMMUNICATION TECHNOLOGY (COT)

2019-2020 Academic Year

Revised: 9/2019

This program leads to a Bachelor of Arts degree.
Requirements for students admitted to the major SU12 and later.
Eleven (11) COMM courses totaling at least 34 credits are required.
A grade of C– or better is required in all courses in the major.
Maintaining a 2.0 GPA in the major is required after admission to the program.

Program Area Description

New Media and Communication Technology explores the way technology is transforming the field of communication. This interdisciplinary major integrates course work from communication, computer science, design, psychology, and business to help you understand interactive technology, evaluate the user experience, and communicate with users from varying levels of technical proficiency. Students in this major choose one of two tracks to pursue: Human-Computer Interaction or Communication Technology Management.

The Human-Computer Interaction track focuses on how people use technology and the social implications of new technologies. The Communication Technology Management track teaches you how to help others use technology effectively in the workplace.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Admission is competitive and an online application is required. Please see comm.osu.edu for application deadlines.

SCHOOL OF COMMUNICATION

COMMUNICATION-BA STRATEGIC COMMUNICATION (SCM)

2019-2020 Academic Year

Revised 9/2019

*This program leads to a Bachelor of Arts degree.
Requirements for students admitted to the major SU12 and later.
Eleven (11) COMM courses totaling at least 35 credits are required.
A grade of C- or better is required in all courses in the major.
Maintaining a 2.0 GPA in the major is required after admission to the program.*

Program Area Description

Strategic Communication teaches you the ways in which organizations communicate with employees, the public, and other audiences in order to accomplish a goal. This major includes courses that examine communication through public relations, marketing communication, advertising, audience analysis, persuasion and public theory, and communication campaigns.

Students will train for careers in business and management or as communication specialists in organizations. They can find employment as public relations specialists, communication campaign and information managers, and communication consultants.

Required Pre-Major courses: 6 credit hours (these courses do not count in the major). All students must complete two pre-major courses. **A grade of C- or better is required in both courses** for a Major & Specialization Application to be considered. Admission is competitive and an online application is required. Please see comm.osu.edu for application deadlines.
