Good afternoon,

On Thursday, May 13th, the Social and Behavioral Sciences Panel of the ASC Curriculum Committee reviewed new course proposals for Speech and Hearing Science 6550 and 6739.

Speech and Hearing Science 6550 was not voted on as the Panel would like the following points addressed:

- The Panel would like the department to seek concurrence from Psychology and other health sciences related departments and programs at the university (e.g., College of Medicine, Nursing etc) due to the course's focus on targeting professionals within the healthcare space as a whole and not specifically Speech and Hearing Science professionals. They are not unconvinced that without these concurrences, in the course's current form, the proposal will not be held up at OAA until these concurrences are gathered and would like to preempt this hurdle.
- Alternatively, the Panel would like to make a friendly suggestion to gear the course towards, specifically, the Speech and Hearing Science professional and change the course title to "Personal Development for the Speech and Hearing Professional" instead of "Personal Development for the Healthcare Professional". In that case, there might not be a need to request concurrences from the health science colleges.
- On page 1 of the syllabus, the course number is listed as 6500. Please change this to 6550, as this is the number that is submitted on curriculum.osu.edu.

Speech and Hearing Science 6739 was unanimously approved with one comment:

- The Panel would like to make the comment that they believe this course potentially would work better as a three-credit hour course, instead of a two credit hour course.

I will return Speech and Hearing Science 6550 to the departmental queue via curriculum.osu.edu to address the Panel's request while Speech and Hearing Science 6739 will continue through the approval process.

Should you have any questions about the feedback of the Panel, please feel free to contact Susan Kline (faculty Chair of the SBS Panel; cc'd on this e-mail), or me.

Best,
Michael
