Good morning,

On Thursday, September 30th, the Themes Panel of the ASC Curriculum Committee reviewed a new GE Themes: Lived Environments proposal for Education: Teaching and Learning 3101

The Panel did not vote on the proposal as they would like the following points addressed:

- The reviewing faculty request further specificity within the Themes submission forms, as they are currently unconvinced that the course fits within the Lived Environments Theme in its current iteration. They suggest adding, for example, further readings and assignments that engage and connect directly to the ELOs of the Theme.
- The reviewing faculty would like to see further clarity on the syllabus, as they are unconvinced that the syllabus lines up with the Theme: Lived Environments. For example, they request further information about the course assignments (as discussed on pages 6-11 on the syllabus) are linked to the ELOs for the Theme.
- The reviewing faculty request that the format of the course be specified. Currently, the syllabus provided leads the Panel to believe that the course is hybrid or distance-enhanced, but the section in curriculum.osu.edu titled "Does any section of this course have a distance education component" is marked as "No". In the College of Arts and Sciences, if a course is being offered as distance enhanced, we require additional forms to be filled out and completed. For more information, please see the ASC Curriculum and Assessment Services website at: <https://ascas.osu.edu/curriculum/distance-courses>.

I will return Education: Teaching and Learning 3101 to the department queue via curriculum.osu.edu in order to address the Panel's requests.

Should you have any questions about the feedback of the Panel, please feel free to contact Jim Fredal (faculty Chair of the Themes Panel) and Elizabeth Griffith (faculty chair of the Theme Advisory Group: Lived Environments), both cc'd to this email; or me.

Best,
Michael

Michael Hilty
