Subject: GIS in Singing Health
Date: Tuesday, October 12, 2021 11:56:00 AM

Good afternoon,

On Friday, October 1, the Arts & Humanities Panel 2 of the ASC Curriculum Committee reviewed the proposal to revise the GIS in Singing Health Program. The proposal was not voted on as the Panel would like to see the following concerns addressed:

- In order for the Panel to review the proposed change to the GIS in Singing Health – and in order for the GIS in Singing Health to receive approval from the Graduate School – all of the required courses for the specialization must be in place. Otolaryngology 8805 is still in the process of being officially created, currently pending approval in the Department of Otolaryngology. Please make sure that that course is indeed submitted by the Department of Otolaryngology so that the revision to the GIS in Singing Health can be considered by the Panel.
- The Panel also asks that the revisions requested for the Music 7814 and Music 7815 proposals be submitted and approved before the GIS in Singing Health returns for review.

Once the department has prepared a revision, please submit the materials via e-mail to myself, Rachel Steele, and Bernadette Vankeerbergen, all cc'd on this message.

Should you have any questions about the feedback of the Panel, please feel free to contact Eugenia Romero (faculty Chair of the A&H2 Panel; cc'd on this e-mail), or me.

Best,
Emily

Emily K. Cody, Ph.D.
