Susan:

The proposal from the Department of Molecular Genetics to establish a combined Bachelor of Science and Master of Science (BS/MS) program was approved by the Council on Academic Affairs at its meeting on June 22, 2022. Thank you for attending.

No additional level of internal approval is necessary. This action will be included in the Council's next Annual Activities Report to the University Senate (July 2022).

The Office of the University Registrar will work you with any implementation issues.

Professor Anika Anthony, Associate Dean, Graduate School will address any follow-up issues relating to the Ohio Department of Higher Education.

Please keep a copy of this message for your file on the proposal and I will do the same for the file in the Office of Academic Affairs.

If you have any questions please contact the Chair of the Council, Professor Maria Coyle (.167) or me.

I wish you success with this important program development.

Randy
