Good evening,

On Wednesday, April 12th, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a course proposal for Math 5588.

The Panel unanimously approved the request with one contingency and one recommendation:

- a. **Contingency:** The Panel asks that the department adjust the course's pre-requisites on curriculum.osu.edu to match the updated pre-requisites that are on pg. 1 of the revised course syllabus, as the information in curriculum.osu.edu dictates what is published in the course catalog and visible to students when registering for courses.
- b. *Recommendation:* The Panel recommends that the department remove the grade of D- from the Grading Scale (syllabus pg. 5), as this grade cannot be assigned to students in Ohio State courses.

As a reminder, **contingencies** (in bold above) must be addressed and resubmitted via curriculum.osu.edu before a course can move forward in the approval process. *Recommendations* (in italics above) should be implemented when the course is next taught. I will return Math 5588 to the department queue via curriculum.osu.edu in order to address the Panel's requests.

Should you have any questions about the feedback of the Panel, please feel free to contact Jen Ottesen (faculty Chair of the NMS Panel; cc'd on this e-mail), or me.

Best,
Rachel

I acknowledge that the land that The Ohio State University occupies is the ancestral and contemporary territory of the Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greenville and the forced removal of tribes through the Indian Removal Act of 1830. I honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.
