Hi Molly,

We currently have this request out to our committee for an electronic vote. I should have an answer for you on concurrence by the end of the week.

Thank you,

Anya

Subject: Concurrence Request - Food Science and Technology: "Role of Food Science in Human Health"

Importance: High

Dear Dr. Nahikian-Nelms,

The Department of Food Science and Technology is seeking concurrence from the School of Health and Rehabilitation Sciences for a new 'Role of Food Science in Human Health' course (2300) planned to be offered in SP23. There is content in this course that may overlap with the disciplines in your academic units, so concurrence from the perspective of the School of Health and Rehabilitation Sciences is valuable to the advancement of this course.

Please provide your feedback by end of day, Monday, August 15 by completing the attached Concurrence Form for each of your units and returning them to me.

Please let me know if you have any questions or need additional information.

Thank you,

Molly Davis (she, her)
