Good morning,

On Monday, March 7th, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a course proposal for Stats 3440.

The Panel unanimously approved the request with one contingency and one recommendation:

1. Contingency: The Panel requests that the department include Student Life Disability Services information for all campuses that will be served by this course. Information about the various offices can be found here: <https://slds.osu.edu/about-us/affiliations/>
2. Recommendation: The Panel recommends that the department include information in the course description (Course Change Request pg. 1 under "General Information") and the syllabus (pg. 3 under "How This Online Course Works") regarding the requirement for in person exams.

I will return Stats 3440 to the department queue via curriculum.osu.edu in order to address the Panel's requests.

Should you have any questions about the feedback of the Panel, please feel free to contact Wendy Panero (faculty Chair of the NMS Panel; cc'd on this e-mail), or me.

Best,
Rachel

I acknowledge that the land that The Ohio State University occupies is the ancestral and contemporary territory of the Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greenville and the forced removal of tribes through the Indian Removal Act of 1830. I honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.
