Good afternoon,

On Thursday, June 23rd, the Themes Panel of the ASC Curriculum Committee reviewed a new GE Theme: Lived Environments proposal for ENR 3500. Please see below for the Panel's feedback.

ENR 3500 was unanimously approved with one contingency and one recommendation. As a reminder, the Panel's contingency must be satisfied in a revision submitted to curriculum.osu.edu while the Panel's recommendation may be implemented when the course is next taught.

- **Contingency:** The reviewing faculty kindly request that a reading list be provided in the course syllabus that details the required course readings. On page 5 of the syllabus, it mentions that students will be required to read journal articles and book chapters, but they were unable to see what these journal articles and book chapters were.
- **Recommendation:** On page 16 of the syllabus, David Wirt is mentioned as an embedded mental health counselor. The reviewing faculty recommend clarifying which student populations qualify to use his services, given that this course will be taken by students across the University and not only CFAES students.

I will return ENR 3500 to the departmental queue via curriculum.osu.edu in order to address the Panel's feedback.

Should you have any questions, please do not hesitate to reach out to Jim Fredal, faculty Chair of the Themes Panel, Liz Griffith, faculty Chair of the Theme Advisory Group: Lived Environments, or me.

My best,
Michael
