---

Good morning,

On Tuesday, October 11<sup>th</sup>, the Themes 2 Panel of the ASC Curriculum Committee reviewed a proposal for Civil Engineering and Earth Sciences 3530.

I am happy to report that the Panel unanimously approved the request with one recommendation:

- **Recommendation:** The reviewing faculty recommend moving language from the distance approval cover sheet provided to the course syllabus to help clarify to students that this course is a **high-impact** interdisciplinary, team-taught course.

Earth Sciences and Civil Engineering 3530 has already been advanced out of my office's queue through the approval process.

Should you have any questions, please do not hesitate to reach out to Bill Putikka, faculty Chair of the Themes 2 Panel, or me.

All my best,  
Michael
