HOW THIS ONLINE COURSE WORKS

Mode of delivery: This course is 100% online, combining synchronous sessions each week via Zoom (class and small groups) and weekly asynchronous modules as described below. Your attendance is based on your synchronous session attendance and participation in online activities.

Synchronous session expectations: Please join CarmenZoom for synchronous (live) small-group and full-class sessions five minutes prior to the class start time. The CarmenZoom links to join each session will be posted on Carmen. Active engagement and participation (with camera on) during small-group and full-class sessions is **EXPECTED**.

Synchronous approaches to material include:

- use of target language (ASL) for instruction and student participation,
- demonstration/modeling for instruction and student participation,
- guided/directed activities for instruction and student participation,
- lectures and active discussion (expressed in ASL and English),
- student presentations-individually, partners, small groups (expressed in ASL and English),
- video/web exercises for in-class instruction,
- video clips viewed in class.

Asynchronous expectations and pacing: The course content is divided into **weekly asynchronous Carmen Modules** posted each week. Students may schedule their efforts freely within each week's time frame.

Asynchronous approaches to material include:

- use of target language (ASL) for instruction and student participation,
- lectures (expressed in ASL and English),
- student presentations-individually, partners, small groups (expressed in ASL and English),
- assigned video clips viewed independently and available on Carmen,
- assigned independent readings available on Carmen,
- written reflective responses to texts, film, discussions, and experiences,
- video/web exercises for independent practice,
- assessments for receptive skills available on Carmen,
- students will record and submit videos of themselves signing (expressive skills) using, CarmenZoom and posting the recording links to Carmen.

Credit hours and work expectations: This is a **4-credit-hour course**. According to Ohio State policy (go.osu.edu/credithours), students should expect around 4 hours per week of time spent on direct instruction (instructor content and Carmen activities, for example) in addition to 8 hours of homework (reading and assignment preparation, for example). <u>ASC Honors</u> provides an excellent guide to study time and hours in class.

Attendance and participation requirements: For this 100% distance-education course, you are expected to actively participate during synchronous and asynchronous activities. The following is a summary of students' expected participation:

- Active engagement and participation in synchronous sessions: EXPECTED
 - All live, scheduled events for the course are expected and encouraged to support your skill development. What is meant by "active" engagement and participation? This skill-building course requires visual access between us—active means you can be seen and engage with the language during our sessions together. Come to class fully prepared (check the class agenda prior) with your video turned on and actively contribute to and participate in class.

• Participation in asynchronous activities: AT LEAST THREE TIMES PER WEEK

You are expected to log in to the course in Carmen every week. (During most weeks you will probably log in many times.) If you have a situation that might cause you to miss an entire week of class, discuss it with me *as soon as possible*.

Office hours: OPTIONAL

Attendance during live (virtual via CarmenZoom) office hours is optional and can be used to discuss learning and study strategies, course content and skill development. I am available to help you learn, understand, and grow as individuals.

Achieving an optimal distance learning experience: Previous distance learning courses have provided insights from students on how to improve the learning experience and optimize outcomes. Here are a few tips from previous students to encourage your success in this online course:

- Keep up with the schedule and assignment due dates.
- Schedule time to complete activities at a steady pace during the week. Keeping a schedule prevents a last-minute rush and keeps the workload manageable.
- Complete assigned lectures, activities, and readings <u>prior</u> to synchronous lectures. This ensures you are prepared to follow along and participate.
- Follow the instructor's recommendations for camera and microphone settings during CarmenZoom synchronous sessions.
- Be sure to have access to a reliable internet connection.
- Have at least one reliable device and a backup plan in case of a technological issue.
- Back up your work. OSU provides free access to data storage through Microsoft One Drive.

Late Assignments and LifeFlex Extension Policies

Assignments must be turned in by the due date and time to be eligible to earn full credit. *LifeFlex* **Extension** is an approach to permit students a one-week extension with no questions asked, as long as students request their need for an extension **prior to the due date and time**. Assignments eligible for *LifeFlex* will be identified in the syllabus and Carmen.

If extenuating circumstances do *not* allow for prior approval and you turn in an assignment late, this work will be accepted with a 10% deduction per day beyond the due date. Once the number of days late causes a point deduction equal to a zero grade, the work will not be accepted.

Note: *LifeFlex* Extensions **do not apply to tests**. See the specific test description for the policy on make-ups.

Grade Review Policy

Students are to review all assignments (tests, papers, etc.) upon receipt of grade. If there are questions or concerns, discussions of assignment grades with your instructor are to take place no later than one week after having received the grade.

Instructor Feedback & Response Time

The following list provides an idea of my intended availability throughout the course. (Remember that you can call **614-688-4357(HELP)** at any time if you have technology-related problems.)

- **Grading and feedback:** For large assignments and assessments, you can generally expect feedback within **7 days**.
- Email: I will reply to emails within 48 hours on days when class is in session at the university.

DESCRIPTIONS OF MAJOR COURSE ASSIGNMENTS

Class Attendance

*** By the beginning of the second week of class, read, sign, and submit the "Policy Agreement" on Carmen (Code of Conduct & Acknowledgement of Attendance Policy).

All students are required to attend class sessions. This is crucial for the development of your language skills and ensures you have the opportunity to learn through participating in class activities and discussions. By committing to regular attendance, we create a positive learning environment where all students can succeed. Students who miss class are responsible for any material that was covered.

Attendance Points for Class Sessions		
94-100% class attendance rate	=	20 points
88-93% class attendance rate	=	16 points
82-87% class attendance rate	=	12 points
76-81% class attendance rate	=	8 points
0-80% class attendance rate	=	0 points
	•	•

Attendance policies begin the second week of class, and your instructor will provide an update on your attendance record at least once during the semester. Please keep a personal record of your absences and late days. Carmen Canvas does not have an in-built deduction feature; therefore, points will be manually entered at the end of the semester when your instructor posts final grades.

Excused absences: There are reasonable exceptions to the attendance policy that will <u>not</u> negatively impact your attendance rate. An excused absence is defined by the University as:

1) **Participation in a sanctioned University function**. Students who participate in Universitysanctioned events must submit a copy of the events and their dates/times, signed by their coach/supervisor/Instructor on OSU letterhead. This is due to the instructor by the second week of the semester. It is the student's responsibility to create an agreement with your instructor to address due dates and missing class content.

2) A death in the family or of a close friend. Students attending a funeral should provide some evidence of the event.

3) **Observation of a religious holiday**. Students observing a religious holiday must inform the instructor within the first two weeks of class of the upcoming holiday(s) and the dates/times to be missed.

4) **Unexpected illness with doctor's excuse.** Students absent due to illness must have a doctor's excuse written on the doctor's letterhead or with his/her seal, and have the date(s) of illness, the doctor's signature, and the physician's phone number and address. 5) **Other legitimate excused absences requiring documentation**: subpoenas, jury duty, military service, serious verifiable family emergencies, and attendance accommodations indicated by SLDS.

If the reason for your absence does not fit into the definition above, it is considered an **unexcused absence** and will result in an attendance rate deduction.

Class Participation

Class participation includes your learning, behavior, attitudes, interactions with peers, and your use of ASL during a variety of activities (individual, group, signed presentations, discussions, etc.). Preparation for class, active participation in class, and being punctual are important for your skill development and your success in this course. You are expected to adhere to the expectations within the ASL Program's Code of Conduct. Helpful expressions for common questions and statements are labeled as "Survival Signs" in your ASL Course Packet. Consult your ASL Course Packet frequently and memorize these expressions.

Misuse of computers, tablets, cell phones, and smartwatches: During class, you are asked not to consult email, text messages, social media, etc.; you may only access course material. Cell phones should be set on vibrate or turned off and put away. If you expect an important phone call, please inform me before class and quietly excuse yourself when you receive it. Misuse of technology during class can negatively impact your participation grade. To earn attendance and participation points, **you are required to have your video ON.** Please review the ASL Program's Code of Conduct carefully.

Twice during the semester, you will complete a 10-point quiz on Carmen to reflect on your class participation. You will be asked to recall details about your own participation and meaningful interactions with others. <u>Ohio State's Shared Values initiative</u> calls on each of us – faculty, students, and staff – to strive for the highest standards of excellence, inclusion, care, compassion, respect, and accountability in our interactions. In ASL courses, we work hard to create a thriving class community in which we understand each other better through open and curious learning and communication, appreciate our cultural backgrounds and experiences, and share in meaningful success. Our participation and accountability to this community and growth is crucial to language and culture study. We invite you to practice the qualities, attitudes, and skills of intercultural competence by being honest with yourself and trying to imagine how others, such as your instructor, view your performance.

Class Participation Tips:

- **Come to class prepared.** This means reviewing vocabulary and grammar, completing the assigned readings & videos, and coming up with questions and/or ideas to share.
- **Be engaged.** This means participating in class activities, asking questions, and respectfully paying attention to other students' contributions.
- **Be respectful.** This means creating a positive and supportive learning environment and avoiding personal attacks and offensive comments. It also means keeping your devices (laptop, tablet, cell phone, and/or smartwatch) on silent and use them only to access class material. Respect the practice of immersion by following a "voices-off" policy and always use ASL.
- **Contribute to the learning of the class.** This means sharing your knowledge and experience with others and helping to clarify or expand on the concepts being discussed.
- **Reflect on your participation.** After each class, take some time to reflect on your participation. How did your class participation help you learn? What could you do to improve?

Skills Assessments

There are three (3) Skills Assessments to assess your understanding of signed communication, grammatical concepts and your ASL expressive skills using vocabulary and grammar structures.

The **first two skill assessments** will be completed interactively, covering units 11 &12 and then unit 13, assessing your receptive and expressive skills. Your use of culturally appropriate behaviors will also be assessed. Both will be small group conversations related to the recent unit(s). Both will be recorded during class. The first is observed in real-time by your instructor with feedback discussed immediately after. You will schedule in advance for your testing date since this is scheduled over two class meetings. The second will be recorded during class time and graded by your instructor outside of class time. Details with prompts will be posted on Carmen.

Collaboration with peers: The course includes opportunities for formal collaboration in ASL with your classmates. This can be stressful for students when it comes to receiving grades and feedback, so I have attempted to make guidelines as clear as possible. If you're unsure about a particular situation, please ask ahead of time.

The **third skills assessment** is an individual, prepared presentation focusing on units 14 & 15 while including cumulative knowledge and skills from the entire ASL series. The presentation will occur live with a small group of peers and your instructor. Details on Carmen. This counts as your final exam. Presentations are scheduled during our last class and on our final exam date and time from the university registrar. This date and time is in our syllabus schedule. You are required to be available during final exams week. Only documented university approved absences will be accepted.

Academic integrity and collaboration: You must complete the Individual Skill Assessment yourself, without any external help or communication.

The three (3) skills assessment dates are specified in the weekly schedule section of the syllabus. Should you not be in attendance for a test, make-up tests will be permitted for what is defined by the university as an excused absence. An excused absence requires documentation and only when the instructor is presented with acceptable documentation **prior to or on the day you return to class** will a make-up test be scheduled and given. The test must be scheduled within the next week. If you do not have the documentation provided by the day you return, no make-up will be scheduled or given. If the reason for your absences does not fit into the definition of excused absence, then it is considered an <u>unexcused absence</u>. Missed tests during unexcused absences <u>cannot</u> be made up; the grade will be a zero.

Intercultural Competence Assignments

The Intercultural Competence Assignments provide an opportunity for you to reflect on your own experiences, journey, knowledge and understanding of developing intercultural competence. The topics for assigned readings and videos are selected for you to develop skills to communicate respectfully with signers. These will be a variety of activities that will take place both in class and out of class, including discussion, activities, reflections, quizzes, and projects.

Academic integrity: You must complete these assignments yourself, without any external help or communication. Use of assigned course materials is permitted.

Written assignments: Your written assignments should be your own original work. In formal assignments, you should select a style (MLA, APA, or Chicago) to cite the ideas and words of your research sources. You are encouraged to ask a trusted person to proofread your assignments before you turn them in, but no one else should revise or rewrite your work.

Activities & Assignments

The components of this category will be incorporated into the class throughout the semester. The Activities and Assignments may or may not be listed in the weekly schedule of the syllabus. The nature and type of each activity and or assignment is the instructor's discretion and will be explained during class and/or posted to Carmen. Instructors will update students on their progress at least three times during the semester. Students are welcome to inquire at any time (in writing) about the status of their grades.

Activities and Assignments will be used to provide additional support to class expectations, course learning outcomes, and the GE World Language goals and expected learning outcomes. The instructions, due dates, and point values will be posted on Carmen. Examples of possible Activities and Assignments include:

- o homework (Instructors will post HW, due dates, and point values on Carmen)
- o practice quizzes (Instructor will post due dates and point values on Carmen)
- o partner and small group activities
- o expressive skill activities (signing during class or submitting on Carmen)
- self-evaluation(s) and/or reflections
- o test corrections

Collaboration with peers: The course includes opportunities for formal and informal collaboration with your classmates. While study groups and peer-review of expressive skills are encouraged, remember that comparing answers on an assignment is not permitted. If you're unsure about a particular situation, please ask ahead of time.

Written assignments: Your written assignments, including discussion posts, should be your own original work. In formal assignments, you should select a style (MLA, APA, or Chicago) to cite the ideas and words of your research sources. You are encouraged to ask a trusted person to proofread your assignments before you turn them in, but no one else should revise or rewrite your work.

Open Support & Practice Sessions

During various days and times each week, ASL Program instructors will host drop-in sessions open to *any* current ASL student. You are encouraged to attend for additional practice and review as often as you would like. All students are required to attend a one-hour Open Support & Practice Session at least once during the semester. The schedule and location(s) for Open Support & Practice Sessions will be posted to Carmen.

OTHER COURSE POLICIES

Discussion & Communication Guidelines for Zoom

The following are expectations for how we should communicate as a class via CarmenZoom. Above all, please remember to be respectful and thoughtful.

- **Technical Issues**: If you encounter a technical issue with Zoom during a session, first make sure you are using the latest version of Zoom. Next, contact the IT Service Desk at <u>go.osu.edu/it</u> or 614-688-4357(HELP). If issues continue, contact me after the session to learn how to make up for the missed content either via a recording or other means. I will not be able to address technical issues during a live session.
- **Preparation:** Come to the session having completed any readings or pre-work and be ready to have open, civil, and supportive discussions in video and chat spaces. I ask that you update your Zoom profile with your preferred name.
- **Participation:** At the start of our sessions, I will share specific expectations for how to use the chat, how to interact, and how to raise questions or concerns as we go. If you are unsure about expectations or are unsure about raising a question, please follow up with me afterward to make sure your questions are answered. Plan to be present during the entire class session as much as you are able. You will be asked you to share your video on camera so that we can see each other and connect. Virtual backgrounds are NOT recommended as they interfere with the clarity of signing. Many students and instructors prefer not to share their remote spaces for a variety of reasons. Mute your microphone when others are talking to minimize background

noise in the meeting. If you have any concerns about participating in class over Zoom in this way, please let me know. My goal is to create a safe environment where we can benefit from seeing each other and connecting, but I want to prioritize your safety and well-being.

• **Recordings:** This course uses video and audio recordings of class lectures, student presentations, and related materials. These recordings are available to all students presently enrolled in the course. Please note that you are not allowed to share these recordings. This is to protect your FERPA rights and those of your fellow students.

Discussion & Communication Guidelines for Carmen

The following are expectations for how we should communicate as a class via Carmen. Above all, please remember to be respectful and thoughtful.

- Writing style: While there is no need to participate in class discussions as if you were writing a research paper, you should remember to write using good grammar, spelling, and punctuation. A more conversational tone is fine for non-academic topics.
- **Tone and civility**: Let's maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn't always come across online.
- **Citing your sources**: When we have academic discussions, please cite your sources to back up what you say. For the textbook or other course materials, list at least the title and page numbers. For online sources, include a link.
- **Backing up your work**: Consider composing your academic posts in a word processor, where you can save your work, and then copying into the Carmen discussion.

Academic Integrity Policy

See the above **Descriptions of major course assignments**, for specific guidelines about collaboration and academic integrity in the context of this online class.

It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term "academic misconduct" includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee

SKILLS ASSESSMENTS

There are three (3) Skills Assessments to assess your understanding of signed communication, grammatical concepts and your ASL expressive skills using vocabulary and grammar structures.

The first two skills assessments will be completed interactively, covering units 11 &12 and then unit 13, assessing your receptive and expressive skills. Your use of culturally appropriate behaviors will also be assessed. Both will be small group conversations related to the recent unit(s). Both will be recorded during class. The first is observed in real-time by your instructor with feedback discussed immediately after. You will schedule in advance for your testing date since this is scheduled over two class meetings. The second will be recorded during class time and graded by your instructor outside of class time. Details with prompts will be posted on Carmen.

The third skills assessment is an individual, prepared presentation focusing on units 14 & 15 while including cumulative knowledge and skills from the entire ASL series. The presentation will occur live with a small group of peers and your instructor. Details on Carmen. This counts as your final exam. Presentations are scheduled during our last class and on our final exam date and time from the university registrar. This date and time is in our syllabus schedule. You are required to be available during final exams week. Only documented university approved absences will be accepted.

INTERCULTURAL COMPETENCE DISCUSSIONS & REFLECTIONS

The Intercultural Competence Discussions & Reflections are activities that will assess and assist with your journey, knowledge and understanding of Intercultural Competence addressed in class and in the course resources for each unit. These will be a variety of activities that will take place both in class and out of class. They may be discussion, reflections, journals, activities, etc.

STUDENT ACTIVITIES AND ASSIGNMENTS

The components of this assessment category will be incorporated into the classroom throughout the semester. The activities and assignments may or may not be listed in the weekly schedule of the syllabus. The nature and type of each activity and/or assignment is at the instructors' discretion and will be explained in class and/or posted (if applicable). Minimally once during the semester, Instructors will update students on their progress. Students are welcome to inquire at any time (in writing) about the status of their grade. Activities and assignments will be used to provide additional support to the learning objectives as well as classroom rules and expectations. Examples of what the activities and assignments could be are (but not limited to):

- Participation in class
 - Individual activities
 - Group activities
 - Presentation activities (signing in front of the class)
 - Culture discussions
- Homework (Instructors will post on Carmen what is due, when it is due, and how many points it will be).

- Self-Evaluation(s)
- Bringing items to class as needed
- Support of the Code of Conduct/behavior (use of phones, talking...)

STUDENT SELF-PERFORMANCE ASSESSMENTS

The components of this assessment category will be incorporated into the classroom throughout the semester. Each of these activities will have a limited time frame in which the students are to complete the activity. These activities are tied to the ASL 1103 GE assessment plan and are graded on a completion basis. If you do not complete the activity you will not get the points.

ATTENDANCE COMMUNICATION POLICY

Attendance is mandatory, however, we are aware that students may need to miss class to see a doctor if they are not feeling well or, if they contract or are exposed to the COVID-19 virus, they will need to quarantine and work from their place of residence. We are also aware that 'excusable' situations arise such as, jury duty, military commitments, death/illness in the family. (Note that having to work is not an excusable situation.) In order to keep track of who is ill and may need extra assistance, we have developed a new attendance communication policy for the duration of the pandemic, which is the following:

If you miss class or know you are going to miss class, you are required to send the following message to your instructor:

I, <u>NAME</u>, certify that I am missing class for an excusable reason. I will be out of class due to (insert from list of excusable absences here – see paragraph titled Attendance). I will be returning to class on ______.

If your absence is due to illness and/or a need to quarantine, please add the following:

Due to illness or quarantine, I expect that I will miss (<u>NUMBER</u>) days/weeks of class. (You may elaborate if you wish).

If you are out of class for more than two days with illness or for quarantine, you and I will set up a zoom session to create a plan for keeping you on track for your return to the classroom. This plan will involve you learning virtually while you are out.

If you fail to contact your instructor, your absence will be considered unexcused and you will be responsible for material provided in class, there may not be materials readily available virtually.

PREPARATION FOR & PARTICIPATION IN CLASS

Preparation for class, active participation in class, and being punctual are important for your skill development and your success in this course. You will benefit from daily review and practice with ASL. Homework for this purpose and/or for cultural knowledge may be assigned

during the semester and may require using the video clips, readings, and your independent creation or collection of materials. You are expected to complete the preparation before class starts, bring any materials to class, and participate in class activities and discussions.

GRADE REVIEW POLICY

Students are to review all assignments (tests, papers, etc.) upon receipt of grade. If there are questions or concerns, discussions of assignment grades with your instructor are to take place no later than one week after having received the grade.

LATE WORK POLICY

Writing assignments must be turned in by the due date and time to be eligible to earn full credit. Extensions will only be granted to students who have received **PRIOR APPROVAL** from their instructor.

If there are extenuating circumstances that do *not* allow for prior approval and you turn in an assignment late, this work will be accepted with a 10% deduction per day beyond the due date. Once the number of days late causes a point deduction equal to a zero grade, the work will not be accepted.

Note: The late work policy does not apply to tests. See the specific test description for the policy on make-ups.

ELECTRONIC SUBMISSION ISSUES/PROBLEMS

Problems with computer equipment and/or Internet access (computer crashes, internet was "out", etc.) may **NOT** be used as an excuse for late, missing, or incomplete coursework in order to receive full credit. Access to a reliable Internet connection is required for this course. If you experience problems while working on assignments for this course, it is your responsibility to find alternative equipment, alternative method of submitting the assignment, or Internet access point, such as a public library or Wi-Fi® hotspot.

It is the **STUDENT'S responsibility** to double check that the paper, on-line quiz & exams, or any other assignment has been submitted successfully and on-time according to the weekly schedule or any Carmen updates. YOU need to do this immediately and/or before the deadline of the assignment. If there is a problem with the submission the instructor must be made aware of the problem (preferably through email) **PRIOR** to the deadline of the assignment. It is recommended that you keep documentation of proof of submission or attempted submission. If the student has not been in contact with the instructor prior to the deadline, the assignment will be considered late and the late work policy will take effect. See the late work policy above for specifics.

NETIQUETTE

The term "Netiquette" refers to the etiquette guidelines for electronic communications, such as e-mail and discussion board postings. Netiquette covers not only rules to maintain civility in

discussions, but also special guidelines unique to the electronic nature of forum messages. In this course we expect students to follow certain guidelines:

- 1. Understand and respect intellectual property and copyrights.
- 2. Understand implications with sexual, racial and other forms of harassment, and by preserving the privacy of personal data to which you may have access.
- 3. You are prohibited from using "misplaced document or file" and/or "downloading/ uploading glitches" as **excuses** for not submitting your assignment by the deadline and/or taking online quizzes/exams (see above for the more thorough policy).
- 4. Respect the privacy of others by not tampering with their tapes, files, attachments, passwords, or accounts or representing others when messaging or conferencing.
- 5. Use only computer IDs or accounts and communication facilities, which you are duly authorized to use, and use them for the purposes for which they were intended.
- 6. Restrict anyone else from using your ID or accounts to access classes or other resources available to registered students of university.
- 7. Respect the integrity of computing systems and data; for example, by not intentionally developing programs or making use of already existing programs that harass other users, or infiltrate a computer or computing system, and/or damage or alter the software components of a computer or computing system, or gain unauthorized access to other facilities accessible via the network.
- 8. Respect others by positioning yourself in quiet environment while using technology or during sessions (taking exams, video conferencing, etc.), for example: other students, family, friends, and/or pets are not to be present as they are/can be a distraction.
- 9. Using email for electronic chain letters, pyramid schemes, mass mailing of unsolicited email, "spamming", or other activities.

CELL PHONE USE IN THE CLASSROOM:

American Sign Language

There is a zero tolerance policy for texting or any other cell phone use in class. Cell phones should be set on vibrate or turned off and put away. If you expect an important phone call, please inform me before class and quietly excuse yourself when you receive it. Using cell phones in class can negatively impact your grade. See Student Activities and Assignments. Cell phones are also listed as a part of the ASL Student Code of Conduct. Please read the Student Code of Conduct carefully.

CLASS CANCELLATION POLICY:

In the unlikely event of class cancellation due to emergency, I will contact you via email and post an announcement on the home page of our Carmen course site, under "News". I will contact you as soon as possible following the cancellation to let you know how the syllabus and work deadlines will be affected.

For Permanent DL/DH Approval | College of Arts and Sciences

Course Number and Title:

Carmen Use

When building your course, we recommend using the <u>ASC Distance Learning Course Template</u> for CarmenCanvas. For more on use of <u>Carmen: Common Sense Best Practices</u>.

A Carmen site will be created for the course, including a syllabus and gradebook at minimum.

If no, why not?

Syllabus

Proposed syllabus uses the ASC distance learning syllabus template, includes boilerplate language where required, as well as a clear description of the technical and academic support services offered, and how learners can obtain them.

Syllabus is consistent and is easy to understand from the student perspective.

Syllabus includes a schedule with dates and/or a description of what constitutes the beginning an end of a week or module.

If there are required synchronous sessions, the syllabus clearly states when they will happen and how to access them.

Additional comments (optional):

Instructor Presence

For more on instructor presence: About Online Instructor Presence.

Students should have opportunities for regular and substantive academic interactions with the course instructor. Some ways to achieve this objective:

Regular instructor communications with the class via announcements or weekly check-ins.

Instructional content, such as video, audio, or interactive lessons, that is visibly created or mediated by the instructor.

Regular participation in class discussion, such as in Carmen discussions or synchronous sessions.

Regular opportunities for students to receive personal instructor feedback on assignments.

Please comment on this dimension of the proposed course (or select/explain methods above):

Delivery Well-Suited to DL/DH Environment

Technology questions adapted from the <u>Quality Matters</u> rubric. For information about Ohio State learning technologies: <u>Toolsets</u>.

The tools used in the course support the learning outcomes and competencies.

Course tools promote learner engagement and active learning.

Technologies required in the course are current and readily obtainable.

Links are provided to privacy policies for all external tools required in the course.

Additional technology comments (optional):

Which components of this course are planned for synchronous delivery and which for asynchronous delivery? (For DH, address what is planned for in-person meetings as well.)

If you believe further explanation would be helpful, please comment on how course activities have been adjusted for distance learning (optional):

Workload Estimation

For more information about calculating online instruction time: ODEE Credit Hour Estimation.

Course credit hours align with estimated average weekly time to complete the course successfully.

Course includes direct (equivalent of "in-class") and indirect (equivalent of "out-of-class)" instruction at a ratio of about 1:2.

Provide a brief outline of a typical course week, categorizing course activities and estimating the approximate time to complete them or participate:

In the case of course delivery change requests, the course demonstrates comparable rigor in meeting course learning outcomes.

Accessibility

For more information or a further conversation, contact the <u>accessibility coordinator</u> for the College of Arts and Sciences. For tools and training on accessibility: <u>Digital Accessibility Services</u>.

Instructor(s) teaching the course will have taken Digital Accessibility training (starting in 2022) and will ensure all course materials and activities meet requirements for diverse learners, including alternate means of accessing course materials when appropriate.

Information is provided about the accessibility of all technologies required in the course. All third-party tools (tools without campus-wide license agreements) have their accessibility statements included.

Description of any anticipated accommodation requests and how they have been/will be addressed.

Additional comments (optional):

Academic Integrity

For more information: Academic Integrity.

The course syllabus includes online-specific policies about academic integrity, including specific parameters for each major assignment:

Assignments are designed to deter cheating and plagiarism and/or course technologies such as online proctoring or plagiarism check or other strategies are in place to deter cheating.

Additional comments (optional):

Frequent, Varied Assignments/Assessments

For more information: Designing Assessments for Students.

Student success in online courses is maximized when there are frequent, varied learning activities. Possible approaches:

Opportunities for students to receive course information through a variety of different sources, including indirect sources, such as textbooks and lectures, and direct sources, such as scholarly resources and field observation.

Variety of assignment formats to provide students with multiple means of demonstrating learning.

Opportunities for students to apply course knowledge and skills to authentic, real-world tasks in assignments.

Comment briefly on the frequency and variety of assignment types and assessment approaches used in this course (or select methods above):

Community Building

For more information: Student Interaction Online.

Students engage more fully in courses when they have an opportunity to interact with their peers and feel they are part of a community of learners. Possible approaches:

Opportunities for students to interact academically with classmates through regular class discussion or group assignments.

Opportunities for students to interact socially with classmates, such as through video conference sessions or a course Q&A forum.

Attention is paid to other ways to minimize transactional distance (psychological and communicative gaps between students and their peers, instructor, course content, and institution).

Please comment on this dimension of the proposed course (or select methods above):

Transparency and Metacognitive Explanations

For more information: Supporting Student Learning.

Students have successful, meaningful experiences when they understand how the components of a course connect together, when they have guidance on how to study, and when they are encouraged to take ownership of their learning. Possible approaches:

Instructor explanations about the learning goals and overall design or organization of the course.

Context or rationale to explain the purpose and relevance of major tasks and assignments.

Guidance or resources for ancillary skills necessary to complete assignments, such as conducting library research or using technology tools.

Opportunities for students to take ownership or leadership in their learning, such as by choosing topics of interest for an assignment or leading a group discussion or meeting.

strategies, and progress.

Opportunities for students to provide feedback on the course.

Please comment on this dimension of the proposed course (or select methods above):

Opportunities for students to reflect on their learning process, including their goals, study
