Good afternoon,

On Tuesday, December 6th, the Themes 2 Panel of the ASC Curriculum Committee reviewed a new GEN Theme: Health and Wellbeing proposal for Speech and Hearing Sciences 4530.

I am pleased to report that Speech and Hearing Sciences 4530 has been unanimously approved with one recommendation:

- **Recommendation:** The reviewing faculty kindly note that the Arts and Sciences Curriculum Committee recently updated the Student Life-Disability Services and Mental Health statements with minor language changes. They are making faculty across the College aware of these updates and are asking units to update their syllabi and/or syllabi templates as applicable. The most up-to-date statements can be found on the ASC Curriculum and Assessment Services website at: <https://asccas.osu.edu/curriculum/syllabus-elements>.

Speech and Hearing Sciences 4530 will continue through the approval process. My office will advance the proposal to OAA.

Should you have any questions, please do not hesitate to reach out to Bill Putikka, faculty Chair of the Themes 2 Panel, Eden Lin, faculty Chair of the Theme Advisory Group: Health and Wellbeing, or me.

All my best,
Michael
