Good afternoon,

On Tuesday, December 6th, the Themes 2 Panel of the ASC Curriculum Committee reviewed a High-Impact Practice: Interdisciplinary Team-Teaching request for Food Science & Technology 3110.

The Panel did not vote on the proposal, as they would like the following feedback items addressed:

- High-Impact Practice: Interdisciplinary Team-Teaching
 - The reviewing faculty of the ASCC Themes 2 Panel had a discussion with Yael Vodovotz and Molly Davis to help clarify the nature of the high-impact practice proposal. After having a very fruitful discussion, the Panel is asking for the following in a revision from the department:
 - The reviewing faculty would like to see, in the course calendar, which faculty members will be instructing during each time the class is in session. This will help cement in the proposal that the team-teaching taking place is high-impact, as defined by the Office of Academic Affairs.
 - The reviewing faculty offer a friendly recommendation to, perhaps, further develop the entrepreneurial aspect of the course. This could be incredibly beneficial to both the students and the course as, from the conversation had between Yael Vodovotz, Molly Davis, and the Panel, it would further develop the capstone element of the course.
 - The reviewing faculty request a cover letter that details all changes made as a result of this feedback.

I will return the proposal to the departmental queue via curriculum.osu.edu in order to address the Panel's above feedback.

Should you have any questions, please do not hesitate to reach out to Bill Putikka, faculty Chair of the ASCC Themes 2 Panel, or me.

All my best,
Michael
