Good morning,

On Friday, February 24th, the Themes 1 Panel of the ASC Curriculum Committee reviewed a GEN Theme: Citizenship for a Diverse and Just World and High-Impact Practice: Global and Intercultural Learning: Abroad, Away, or Virtual request for German 3798.02.

I am pleased to report that the Panel unanimously approved the request with one contingency:

- **Contingency:** The reviewing faculty ask that the course's approved legacy General Education Goals, ELOs, and explanatory paragraph be added into the course syllabus. As a reminder, German 3798.02 is approved for GEL Diversity – Global Studies and GEL Education Abroad. The Goals and ELOs for the legacy GE can be found on the ASC Curriculum and Assessment Services website at: <https://ascas.osu.edu/legacy-general-education-gel-goals-and-elos>.

Please note: this proposal has already been fully approved by the Office of the University Registrar and is complete. Per conversations with Rachel Steele, ASC Curriculum and Assessment Services Program Manager, and Bernadette Vankeerbergen, Assistant Dean for Curriculum, the contingency has already been fulfilled by the course proposer.

Should you have any questions regarding this feedback, please do not hesitate to reach out to Jim Fredal, faculty Chair of the Themes 1 Panel, Birgitte Soland, faculty Chair of the Theme Advisory Group: Citizenship for a Diverse and Just World, or me.

All my best,
Michael
