Good morning,

On Tuesday, October 11th, the Themes 2 Panel of the ASC Curriculum Committee reviewed a GEN Theme: Health and Wellbeing and High-Impact Practice: Education Abroad and Away request for Nursing 3798. Please see below for their feedback.

GEN Theme: Health and Wellbeing

- The Panel unanimously approved the request with one contingency and two recommendations.
 - **Contingency:** The reviewing faculty ask that an exclusion be added of Geography 3755, as there is significant content overlap within the two courses.
 - **Recommendation:** The reviewing faculty recommend adding more Health and Wellbeing emphasis to, specifically, the course assignments, to help students better connect their work to the GEN Theme.
 - **Recommendation:** The reviewing faculty recommend further establishing course content to the idea of health and wellbeing within the course syllabus, and especially relating to the various site visits while travelling abroad, to help students better and more clearly draw connections to the GEN Theme category.

High-Impact Practice: Education Abroad and Away

- The Panel unanimously approved the request for the High-Impact Practice: Education Abroad and Away.

Please respond to this email to acknowledge that an exclusion of Geography 3755 will be added to Nursing 3798 in curriculum.osu.edu. As an aside, the Panel has already made a similar request of Geography 3755 to add an exclusion of Nursing 3798, and that has been approved and implemented into the course catalog.

Once my office hears back, we will advance the course through the approval process to OAA.

Should you have any questions, please do not hesitate to reach out to Bill Putikka, faculty Chair of the Themes 2 Panel, Eden Lin, faculty Chair of the Theme Advisory Group: Health and Wellbeing, or me.

All my best,
Michael

Michael Hilty
