To: Curriculum Committee
Colleges of the Arts and Sciences

December 8, 2004

Dear Committee Members,

The Department of Speech and Hearing Science would like to submit the attached New Course proposal, for the course titled "Analyzing the Sounds of Language," for your consideration. There are two versions for this course, which has been developed in collaboration with Linguistics and will be cross listed. There is an Honors course (H286) and a non-honors course (286). The Departments of Speech and Hearing Science and Linguistics would also like to submit both versions for approval as a GEC course satisfying the Data Analysis (Specialized course) requirement of the Model Curriculum. The packet includes the New Course Proposal form, a detailed syllabus, and supporting documentation addressing GEC approval issues for both H286 and 286. We look forward to hearing from you re comments or concerns.

Sincerely,

Marios Fourakis

Associate Professor and Chair, Undergraduate Studies Committee

Robert A. Fox

Professor and Chair, Department of Speech and Hearing Science
