Good afternoon,

On Tuesday, December 6th, the Themes 2 Panel of the ASC Curriculum Committee reviewed a new GEN Theme: Health and Wellbeing proposal for Public Health 3411.

The Panel did not vote on the proposal at this time, as they would like the following feedback items addressed:

- The reviewing faculty ask to see more details surrounding the level of instructor engagement within the course. In the asynchronous version of the course, especially, it is unclear how the instructor will meet the minimum required 3 direct instructional hours per week. While they thank the department for the breakdown provided on page 6 of the syllabus, they are unsure where this information is reflected in the provided course calendar and ask that it be further elaborated upon. They also ask that the amount of instructor-to-student and student-to-student engagement be clarified within the course syllabus.
- The reviewing faculty ask that the course design more thoroughly engage with the course instructor (and any other experts that will be utilized) in the learning process of students. This will allow them to better evaluate how advanced the course is and if it is an appropriate fit for the GEN Theme category.
- The reviewing faculty ask that a cover letter be submitted that details all changes made as a result of this feedback.

I will return Public Health 3411 to the departmental queue via curriculum.osu.edu to address the Panel's above feedback.

Should you have any questions, please do not hesitate to reach out to Bill Putikka, faculty Chair of the ASCC Themes 2 Panel, Eden Lin, faculty Chair of the Theme Advisory Group: Health and Wellbeing, or me.

All my best,
Michael
