Good morning,

On Wednesday, Jan. 25th, the Natural and Mathematical Sciences Panel of the ASC Curriculum Committee reviewed a course proposal for Statistics 6111.

The Panel unanimously approved the request with **one contingency** and *one recommendation*:

- a. **Contingency** – The Panel asks that the department alter the “General Information: Level/Career” section of the Course Request in curriculum.osu.edu to remove the “undergraduate” designation, since 6000 level courses are not open to undergraduates.
- b. *Recommendation* – The Panel recommends that the department provide more information in the syllabus (pg. 3) regarding how participation will be assessed.

As a reminder, a **contingency** (in bold above) must be addressed and resubmitted via curriculum.osu.edu before a course can move forward in the approval process. *A recommendation* (in italics above) should be implemented when the course is next taught. I will return Statistics 6111 to the department queue via curriculum.osu.edu in order to address the Panel’s requests.

Should you have any questions about the feedback of the Panel, please feel free to contact Jennifer Ottesen (faculty Chair of the NMS Panel; cc’d on this e-mail), or me.

Best,
Rachel

I acknowledge that the land that The Ohio State University occupies is the ancestral and contemporary territory of the

Shawnee, Potawatomi, Delaware, Miami, Peoria, Seneca, Wyandotte, Ojibwe and Cherokee peoples. Specifically, the university resides on land ceded in the 1795 Treaty of Greenville and the forced removal of tribes through the Indian Removal Act of 1830. I honor the resiliency of these tribal nations and recognize the historical contexts that has and continues to affect the Indigenous peoples of this land.
