Good morning,

On Monday, May 12th, the Themes 1 Subcommittee of the ASC Curriculum Committee reviewed a GEN Theme: Lived Environments request for Biology 2750.

I am pleased to report that the reviewing faculty approved the request with the following feedback:

- *Recommendation:* The reviewing faculty recommend a thorough review of all hyperlinks included in the syllabus, as many are inactive. The links provided in the Title IX and religious accommodations statements should be updated due to the recent renaming of the Office of Institutional Equity to the [Office of Civil Rights Compliance](#). The full statements with the updated links can be found in an easy to copy/paste format on the [Arts and Sciences Curriculum and Assessment Services website](#). Additionally, the faculty recommend removing the links in the diversity statement, as those offices have been sunset. [Syllabus pp. 12, 15-16]

As a reminder, *recommendations* (in italics above) should be implemented when the course is next taught.

Biology 2750 has been advanced to OAA.

Should you have any questions, please do not hesitate to reach out to me.

Best,
Jennifer
