Chair, Arts and Sciences Curriculum Committee

April 5, 2024

Dear Chair and Members of the Arts and Sciences Curriculum Committee:

On February 28th, 2024, the Natural and Mathematical Sciences Subcommittee of the Arts and Sciences Curriculum Committee reviewed a request to change the Computer and Information Science (CIS) minor as follows: change the name of the minor to Computer Science (CS), remove the requirement for CSE 2501 from the list of required courses for the minor, and alter the list of recommended courses for minors to take as electives. These changes reflect the lack of information science courses applying to the minor and enrollment constraints in many computer science courses.

The NMS Subcommittee unanimously voted to approve the proposed changes to the CIS minor MS with one contingency. This contingency was satisfied in a revised submission and approved on March 25, 2024. This proposal is likewise now advanced to the ASCC with a motion to approve.

Sincerely,

Ian Hamilton
